## OPA Setup On New Car Prices Brings Big Howl from Dealers

### Auto Men Prepare for Finish Fight; Costs To Be About Same as Pre-War Models.

By The Associated Press

WASHINGTON, Nov. 19—OPA says a new automobile should cost just about the same as pre-war models, but dealers indicate they're ready for a finish fight over government pricing methods.

The new ceilings announced yesterday show General Motors cars will cost the public a little less than the 1942 cars, while prices for Fords, Studebakers and Chrysler-made autos will be higher.

Under the OPA plan, manufacturers will be allowed increases. Generally speaking, these will not be passed on to the consumers, but will be absorbed by the dealers.

Rep. Larcada (D-La), who frequently has criticized Price Administrator Chester Bowles, declared today he believed "the best interests of the country would we served by Bowles' removal"

"It looks like Bowles is defying the wishes of congress," Larcade told a reporter.

OPA continued with its plans to put a price tag on other new cars An OPA official said today price rates on additional makes would be completed within two or three weeks

Bowles had one surprise in his price schedule yesterday.

The big surprise of Bowles' announcement is that GM-built Chevrolets, Pontiacs, Oldsmobiles, Buicks and Cadillacs will sell at retail for an average of 2.5 per cent less than in January, 1942. Increases had been expected.

The retail boosts are one per cent for Chryslers and that company's other makes—Plymouth, Dodge and DeSoto, two per cent for Fords, and nine per cent for Studebaker

In the case of Ford, the retail ceiling for a new deluxe eight cylinder tudor sedan is $882 at the factory. The 1942 ceiling was $850.

**Can't Be Compared**

OPA said because of model changes it had no basis at this time for comparison of any except Ford prices

The increases are exclusive of any which may be allowed for appreciable design or specification changes.

Bowles made public ceilings for only a few Ford and Studebaker models, and said prices for other models and other cards would be along as soon as details could be worked out

Boles gave no indication of ceilings for Hudson, Nash, Packard, Crosley, Willys or the new Fraser-Kaiser cars He said either that calculations had not been completed or that production is "still some distance" in the future.

Auto dealers' pleas for outright exemption from the requirement that they absorb some of manufacturers' higher production costs were turned down.

But their traditional pre-war discount of 24 per cent will be cut only 2 5 percentage points, giving them a revised initial profit margin of 21 5 per cent.

**To Keep Price Down**

The purpose of the profit margin cut—called cost absorption—is to keep retail prices for all new cars from averaging more than in 1942.

A Ford spokesman said in Detroit "OPA refused to give us the figures." OPA said Ford and Studebaker prices had been agreed upon and were to be announced simultaneously before they were announced publicly.

OPA declined to comment on the question [illegible]

## BURNING OF YANKS DESCRIBED AT TRIAL

### Atrocity in Which Marion Soldier Died Is Charged.

By The Associated Press

MANILA Nov 19 — The story of how 150 captured U. S soldiers were herded into air raid shelters, drenched with gasoline and set afire last Dec 15 was told today at Lt Gen. Tomoyuki Yamashita's war crimes trial.

Signed documents were the mute witnesses Nine survivors of that Japanese orgy of flame, bullets and bayonet, long since have left the Philippines

The depositions said the Americans were captured in the Philippine fighting

A captured Japanese diary quoted a soldier guard stationed at the air field as saying it was feared American forces were about to land on Palawan and it was necessary to kill the prisoners

The prosecution also put a Japanese colonel on the stand and forced from him an admission that he had urged his troops "to kill Americans cruelly"

## UNION CO. GIRL SHOT TO DEATH BY SISTER

### Dies Accidentally at Hands of 6-Year-Old.

Special to The Star

MARYSVILLE, O, Nov 19 — Mary Alice Andrews, 11, was accidentally shot to death Sunday afternoon by her sister Lois, 6, at their home six miles north of Marysville on route 31.

The two sisters and a brother Gerald, 7, were playing with neighbor children at the Andrews home when one of the children got hold of a loaded shotgun. Dr. H E Stricker of Marysville, who was called immediately after the accident occurred, said the gun had been discharged into Mary Alice's back at close range.

She was taken to the White Cross hospital in Columbus where she died an hour after being admitted

She was born Oct 16 1934 in Marysville and was a pupil in the fifth grade at the Broadway rural school She is survived by her parents Mr and Mrs Clayton Andrews, sisters Lois Mae and Sally Jean, brother Gerald, the paternal grandparents, Mr. and Mrs Ernest Andrews of Watkins, and and maternal grandparents, Mr and Mrs. Harry Sarver of Marysville

The funeral will be held in the Faulkner Funeral home in Marysville Wednesday at 2 p m with burial in the Oakdale cemetery, Marysville

## LABOR, MANAGEMENT FACE TOP PROBLEMS

By The Associated Press

WASHINGTON, Nov 19—The labor-management conference entered its third week today still facing what one business delegate called "truly monumental" disagreements but reportedly ready to accept voluntary arbitration as one remedy for industrial strife

Business Action the weekly report of the U S Chamber of Commerce, said yesterday the conference "appeared to be moving toward final gareement on policies that should serve to lessen industrial strife"

"Both sides were definitely in favor of collective bargaining," the publication said, "and both appeared ready to accept voluntarily arbitration of disputes and grievances arising under the terms of a labor-management contract

However, arbitration of disputes arising under existing contracts would eliminate only one cause of work stoppages and leave many openings for strikes, lockouts, boycotts and picketing.

Two officials of the National Association of Manufacturers—neither willing to be named—have declared no third party should settle a wage-insurance question, and that disciplinary measures against employes should be left to management.

## 8,700 IDLE AS PHONE STRIKE HITS CHICAGO

### Long Wage Negotiations Collapse; 300,000 Off Work in Labor Troubles.

By The Associated Press

A strike of 8 700 operators of the Illinois Bell system disrupted telephone service early today in Chicago, 115 downstate Illinois communities and in Lake and Porter counties, Indiana

A spokesman for the Illinois Telephone Traffic union (Ind) estimated that by midnight at least 50 per cent of Chicago's telephone service would be paralyzed

The telephone company made arrangements for emergency calls for services necessary to health and safety Normal long distance telephone service was being maintained with points outside the state

Negotiations over the union demand for a $6 weekly wage increase have been under way since May 9 The union also seeks a reduction from nine to five years in the time required for operators to become eligible for maximum pay The War Labor board's national telephone commission recommended a $4 weekly pay increase with the maximum to be paid after eight years employment.

**Some Are Settled**

Across the nation between 285,000 and 300,000 workers were idle in labor disputes

A strike of 4,300 CIO textile workers at Nashua, N. H, was settled.

The two sisters and a brother Gerald, 7, were playing with neighbor children at the Andrews home when one of the children got hold of a loaded shotgun. Dr. H E Stricker of Marysville, who was called immediately after the accident occurred, said the gun had been discharged into Mary Alice's back at close range.

Also returning to work today were 2,000 production employes of the Aluminum Ore Co at East St Louis, Ill, who voted to resume negotiations with the company for a 30 per cent wage increase.

At Seattle, a local official of the AFL Typographical union disclosed plans to picket three Seattle newspapers—The Times, Star and Post-Intelligencer—today after union members had voted in favor of a strike

The union is asking a $2 95 daily wage increase Union members voted 112 to 90 against accepting the management's offer of $1 65 a day increase The present rate for a seven hour day is $10 35.

**Will Talk It Over**

AFL bus drivers on Staten Island, N Y, agreed to arbitration of their demand for a 30 per cent wage increase and improved working conditions, thus ending a strike that had left 30 000 persons without bus service for several days.

At Tulsa, Okla, 290 AFL bus drivers were discussing a compromise proposal to end a strike which has paralyzed city bus transportation since last Friday morning.

In San Francisco striking AFL bakery wagon drivers today will deliver 25 000 pounds of bread to government installations, Army and Navy hospitals The bread was produced over the week-end in 13 Lagendorf United Bakeries, which have been closed nine days by the work stoppage The union is asking for a pay raise

At Detroit, 200 CIO United Automobile Workers' delegates from General Motors locals across the nation met to consider strike action against the industry's largest producer. The union demands a 30 per cent wage boost.

**Casino Vote Set**

Timken local of the CIO-United Steelworkers planned to proceed today with plans for a strike vote despite the Timken Roller Bearing Co.'s refusal of permission for an NLRB - conducted election,

## Proposes National System of Compulsory Insurance

By The Associated Press

WASHINGTON, Nov 19 President Truman today submitted to congress a five-point national health program including a compulsory insurance system

The compulsory insurance program, which the White House said is not socialized medicine would call for prepayment of costs through premiums adjusted to meet the income of the people generally

The White House explained that patients would remain free to choose their doctors, that doctors could accept or reject patients and that hospitals would continue to manage their own services The other points in the President's message called for

1 Federal aid for construction of hospitals health centers and other facilities

2 Expansion of public health, maternal and child health services

3 Federal aid for more adequate professional education and research with emphasis on the cause prevention and cure of cancer and mental illnesses

4 Disability insurance to protect families by guaranteeing some income when workers are sick or permanently disabled

"We should resolve now," the President told congress, that the health of this nation is a national concern, that financial barriers in the way of attaining health shall be removed that the health of all its citizens deserves the help of all the nation"

He said his five-point progam covered the five basic problems which we must attack vigorously if we would reach the health ob...

## Assembly Asks For 3-Party Equality In French Cabinet

By The Associated Press

PARIS, Nov. 19—The constituent assembly voted 400 to 163 today to ask Gen de Gaulle to renew his efforts to form a coalition government giving equal representation to the Communists, Socialist and Popular Republican parties

The Communists voted as a bloc against renewal of de Gaulle's mandate in an atmosphere bristling with guns and armed guards which surrounded the Bourbon palace where the assembly met

The vote ended temporarily at least any chance of deGaulle's resigning as France's interim president, however.

## 2 HUNTERS WOUNDED IN ACCIDENTS HERE

### Ironton and Zanesville Men Treated at Hospital.

Paul Salter, radioman 3/c, of Ironton became the first Marion county casualty of the 1945 hunting season when he was wounded in the left hand Saturday, near Marion

Salter who saw three years active sea duty in the Pacific, and is on leave from his station in California, was attempting to remove a plug of dirt from the muzzle of his gun He had just spotted a rabbit and in his excitement he forgot that the gun was cocked His attempts to remove the plug jarred the gun and caused its discharge

He was admitted to City hospital where the first joint and part of the second of his left index finger was removed.

Dr C S Sisk of Zanesville suffered minor lacerations in the palm of his left hand when he fell attempting to climb a fence near Marion Saturday morning. He was treated at City hospital and released.

## 11 JAP CHIEFS ORDERED HELD

### Top Men Face War Trials; 57 Minor Suspects Also Jailed in Atrocities.

By The Associated Press

TOKYO, Nov 19—Eleven Japanese war leaders, including generals accused of responsibility for the rape of Nanking, the Mukden incident and the bombing of the U S gunboat Panay, were ordered arrested today.

Headquarters announced 57 more accused Japanese war criminals—mostly minor characters charged with brutalities against war prisoners—were in custody.

General MacArthur directed the 11 be delivered to a prison camp in Tokyo

While the men were not specifically named as war criminals, all were associated prominently with the militarist decade.

Two of the Japanese—Yosuke Matsuoka, former foreign minister, and Toshio Shiratori, former ambassador to Rome, were instrumental in negotiating the Tripartite (Germany-Italy-Japan) pact.

**Others Included**

Baron Gen. Shigeru Honjo, former commander in chief of the Kwantung army, considered responsible for the Mukden incident, which Japan used as an excuse to conquer Manchuria.

Gen Iwane Matsui, retired, blamed for the rape of Nanking and the bombing of the Panay.

Gen Kuniaki Koiso, premier for a time in 1944 who as chief of staff of the Kwantung army also had a hand in Manchuria's conquest.

Gen. Jiro Minami, once known as the brains of the militarist clique and one of the men who helped force selection of the "Pearl Harbor premier," Hideki Tojo.

## CHARGES JAPS' SYSTEM KNOWN BEFORE ATTACK

### G. O. P. Senator Contests Report Pearl Harbor Signals Broken Dec. 11.

By The Associated Press

WASHINGTON, Nov. 19—Senator Ferguson (R-Mich) said today the Navy translated on the day before Pearl Harbor was attacked a Japanese spy's message to Tokyo telling of a system of light signals to report U. S. fleet movements.

The Michigan senator made the statement during questioning of Rear Admiral T. B Inglis, chief of Naval intelligence, by the congressional committee investigating Pearl Harbor.

Ferguson said he would prove his statement later.

**Dates Differ**

The message, sent from Honolulu Dec. 3, was given the committee earlier with a notation that it was translated Dec. 11.

It was dispatched by a Japanese named Kita and listed numerical signals from one to eight which were to convey such information as "battleships all departed," "carriers departed"

The message said lights would be displayed on the east coast of Oahu island.

It also listed want ads to be broadcast from Hawaii with the equivalent meaning of the numerical signals

Inglis said the federal bureau of investigation had looked into the broadcasts and that the best available information was that they were never used for signaling.

**Hull May Testify**

The possibility arose that former Secretary of State Hull may testify this week.

Julie M. Hannaford, assistant counsel, told reporters today Hull had been asked to follow Admiral J. O. Richardson to the stand. The former cabinet officer, he said, will appear if his health permits.

The committee began its fourth day of hearings by going over with Rear Admiral T. B Inglis the sources of information on which he based a summary given the group Saturday of Japan's version of the Pearl Harbor attack

Inglis said there is no proof that two observation seaplanes launched by the Japanese task force reached Pearl Harbor an hour before the attacking planes.

**Testimony Removed**

Inglis' statement to the committee Saturday included the statement that two planes "reached their destination" an hour ahead of the actual foray. The witness said today this was struck out on the basis of information received from Navy sources Friday night.

Inglis said information on the Japanese version of the attack, received through investigations made by subordinates of Gen. Douglas MacArthur, tallied largely with data gathered by Navy inquiries.

Senator Brewster (R-Me) asked whether records of Honolulu commercial broadcasting stations during the attack period are available. Inglis testified last week he found [illegible] had been found to substantiate a Japanese report that official messages had been sent through [illegible] to the approach of the Japanese fleet.

# VAST EXPANSION IN FOOD TRADES SEEN

By The Associated Press

WASHINGTON, Nov. 19—The agriculture department says it expects the wholesale and retail food trades to spend "hundreds of millions" of dollars next year on a broad expansion program.

Accumulated orders for grocery manufacturing equipment alone were estimated at $600,000,000.

The department said surveys indicated the food trade will engage in extensive building of streamlined one-story wholesale plants, including registration equipment and storage rooms for greatly expanded frozen food sales.

Many new super-markets and suburban food shopping centers are expected to be built.

Likely to figure to some extent in the expansion of food processing will be government policy—still to be formulated—on the disposal of 56 food dehydration plants. These were built by the government during the war at a cost of $129,000,000 for construction and machinery alone.

There are also two government-owned citrus concentrate plants in Florida.

Among problem areas the department added a list of prospective population shifts as war production centers lose some of the population they gained during the war.

"Among areas affected are the far west the south, and the Detroit-Cleveland-Chicago area," the department said. "This is a long-range problem and to be taken into account along with immediate plans to decentralize industry and in the possible development of a new industrial empire on the west coast."

By The Associated Press

The car owned by Clyde M. Manley of near Marion was recovered on route four two miles west of the intersection of routes four and 203 by the state highway patrol Sunday afternoon.

It had been stolen from Oak street between Mill and Center streets sometime Saturday night. When recovered, the car was in the ditch and slight damages had been done to the upholstery. A basket of groceries valued at $4 was missing from the trunk.

# OHIO VET ADMITS 2 DIED IN PRANK

By The Associated Press

CLEVELAND, Nov. 19—A 24-year-old former Army sergeant, discharged two weeks ago, held for questioning today, was quoted by police as saying two persons were killed accidentally when he fired a rifle to split a quarrel.

Police said Jack Cavanaugh, an Army veteran, admitted firing six shots yesterday when fatally wounded Ellis A. Polinak, 21, and Donald May, 46.

Cavanaugh told Detective Sam Mears he was "going to scare" May and Elmer Reid, 48, ex-husbands of his mother-in-law who were quarreling.

"I had no thought of hitting either of them," Cavanaugh told police, adding he "wouldn't believe" one of the bullets struck Miss Polinak.

# REDS ADMIT ADVANCE BY CHIANG'S TROOPS

By The Associated Press

CHUNGKING, Nov. 19 — Chinese Nationalist troops have [illegible] 12 miles into Manchuria [illegible] the Soviet-backed Communist citadel of Changchun and have [illegible] out 30 miles to the west, a Communist spokesman declared today.

But the spokesman asserted "popular" troops were going to take over Manchuria's capital of Changchun, 440 miles northeast of Shanhaikwan, the minute Russian occupation forces withdraw Dec. 1.

These "popular" forces, he said, were pledged to maintain a "democratic rule" in Changchun.

He admitted that while the Communist troops had been thrown back at Manchuria's border they would keep right on resisting the advance of the Nationalist armies.

The spokesman said this resistance would persist as long as the Chungking government "fails to consult the people" on the form of government to be adopted.

Chinese press reports said 30,000 Communist troops had captured the Nationalist stronghold of Paotow, in inner Mongolia.

Artemus Gates, undersecretary of the United States Navy, said at Tsingtao that no decision had been made on possible withdrawal of the Marines, ordered into North China to disarm and repatriate the Japanese.

The American public, Gates added, "is not aware of the serious situation in China and the possible involvement of United States forces."

## W.C.T.U. Entertained by Mrs. John H. Clark

Mrs. J. C. Scheifler, vice president, opened the meeting and Mrs. Charles Feaver was appointed publicity director.

Papers in keeping with the coming season were read by Mrs. C. Z. Zachman, Mrs. H. J. Hartsell, Mrs. Bertha Fletcher, Mrs. C. Musselman and Mrs. Frank Doure. Mrs. A. L. Wood presented a vocal solo. Arrangements were made to hold a Christmas party, Dec. 12 at the Waddell Ladies Home.

### URGES LEGION TO ACT

By The Associated Press

CHICAGO, Nov. 19—Brig. Gen. Kenneth C. Royall, under secretary of war, today urged American Legionnaires to make their influence felt on national defense matters. He said it would take a "strong and concerted effort" to prevent "the pendulum of American thought" from swinging "into the dangerous, rosy game of ostrich-sticking."

# DAYTON MAN HURT IN CRASH NEAR HERE

## Car Driven by Fred T. Kidder Overturns at Newman's.

Fred T. Kidder, 33, of Dayton, O., escaped with minor abrasions and shock when his car skidded from Route 4, approximately eight miles south of Marion, struck an embankment, overturned twice and came to a stop in a cornfield, state patrolmen reported. The accident occurred about 9:30 a. m. today as Mr. Kidder was driving to Marion from Dayton. He was taken to City hospital by D. L. Twigg, resident on the farm where Kidder crashed.

According to patrolmen, he lost control at the curve approaching Newman's bridge. He left the right side of the road and the car was turned on the left side when it came to a stop. The car, badly damaged, was removed to the Scioto Trail garage.

Mr. Kidder is a representative of the Dayton office of the Bureau of Internal Revenue.

# STRIKES

(Continued from Page 1)

Finas Reynolds, local union president, reported.

Reynolds asserted the union was preparing a list of 6,500 names taken from membership files for conduct of an election here Nov. 28 as part of a nationwide strike vote of the steelworkers. Company officials refused to give the NLRB a list of employes, he said.

A Timken spokesman declared yesterday a strike would be in violation of a "no-strike, no-lockout clause" in the company-union contract.

Most of 8,200 Timken employes idled by a recent 33-day strike were expected to return to their jobs today while a company-union conference on suspension of a mill crew, one of the major strike issues, was scheduled this morning.

### LINDY BACKS ATOM PLAN

By The Associated Press

NEW YORK, Nov. 19—Charles A. Lindbergh was on record today as endorsing "in principle" the proposal of President Truman, Prime Minister Atlee of Great Britain and Prime Minister MacKenzie King of Canada for sharing the secrets of atomic energy production if effective United Nations controls are set up.

Winners of contests which followed were Mrs. Hagemann, Mrs. Higgins, Mrs. Everly, Mrs. Lingo and Mrs. Mabel Phelps.

## Java Extremist Radio Urges War on British

By The Associated Press

BATAVIA, JAVA, Nov. 19—An extremist Indonesian radio station called today for "war on the British" and asked Indonesian youths to reinforce the ranks of the hard-pressed native Nationalists at Semarang, scene of the latest outbreak on troubled Java.

A dispatch from embattled Soerabaja said the British had reported evidence that the Indonesians were endeavoring to manufacture bombs and weapons there. Sporadic fighting continued in Batavia.

A British communique said he situation in central Java "gives cause for anxiety in view of the extremely aggressive attitude of local (Nationalist) extremists both in Semarang and Jogjakarta."

**Reorganization** — The senate, which last week debated a bill that would give President Truman broad powers to shift government agencies around, may vote on the matter today.

The chamber has agreed to go along with the house in a requirement that both houses of congress must veto any reorganization plan to block it. There still are other amendments pending. Then the house must act on the senate changes.

**Patman Sees Threat**

**Small Business**—Chairman Patman (D-Tex) of the house small business committee says he thinks "big interests" are out to put his group out of action. He told a reporter that while he had asked for $134,000 to carry on until January 1, the house accounts committee voted him only $20,000.

"That's just scuttling my committee," Patman asserted, adding he planned to ask the full house to give him the sum he originally asked for. His committee needs it, he went on, "to protect small business in this country."

# Auto Dealers Map Fight on OPA Cut

By The Associated Press

CINCINNATI, Nov. 19—Directors of the National Automobile Dealers' association, who were "disappointed but not surprised" at Price Administrator Bowles' action yesterday in cutting automobile dealer discounts by 2.5 per cent, meet today to decide the next step in their fight against the reductions.

The directors, representing every state in the union, were discussing the proposed reductions here when the Bowles announcement was made.

William L. Mallon of Newark, N. J., NADA president, said the decision to reduce discounts "is not justified either by the limited studies made by the OPA or the section of the pricing act upon which Mr. Bowles bases his claim of a right to alter discount margins."

Mallon said testimony before the house small business committee "demonstrated clearly that OPA never had made a full and complete study of all automobile manufacturer and dealer costs.

Mallon continued, "Rep. Patman of Texas, who wrote the section of the law under which Mr. Bowles claims he gets his reduction powers, says those powers never were intended for OPA."

Mallon said an effort to amend the existing law in this regard "surely will be made in the near future."

Acting for the board, Mallon sent telegrams to Bowles and to Rep. Patman denying published reports that the directors had planned discussion of a sit-down strike as a protest against the reductions. Mallon described the report, carried by a wire service other than The Associated Press, as "both untrue and unauthorized."

### KAISER "KIDNAPPER" DIES

By The Associated Press

NASHVILLE, Tenn., Nov. 19—Death came last night to 66-year-old Luke Lea, onetime publisher and power in Tennessee politics and the man who led a party to ex-Kaiser Wilhelm's Dutch retreat in an abortive effort to kidnap him and deliver him to the Paris peace conference. Lea was hospitalized after the recurrence of an old stomach ailment last week. A United States senator at 31, Lea became a colonel of field artillery in World War I.

# ADA YOUTH KILLED IN TRUCK ACCIDENT

## Luther Campbell Dies of Fractured Skull.

Special to The Star

KENTON, O., Nov. 19—Luther Campbell, 15, of Ada, was fatally injured Sunday evening when struck by a truck while on his bicycle about one-half mile north of the Ada corporation on Route 69. The accident occurred about 5:40 p. m. He suffered a fractured skull, a fractured left thigh, left leg and right arm. A verdict of accidental death was given by E. A. Harper, justice of the peace of Ada, who was called in the absence of the coroner.

The truck, belonging to the Ada Wrecking Co., was driven by Don Yinger, 28, of Ada. The Campbell boy was accompanied by Dwight Burnsberger, 14, also of Ada. The two were riding side-by-side and were traveling north. The truck was traveling in the same direction. The accident was investigated by Cpl. R. L. Doebel, state highway patrolman at Lima.

# 8 NAZIS TO FIGHT DEATH SENTENCES

By The Associated Press

LUENEBURG, Nov. 19—Joseph Kramer, "The Beast of Belsen," stony-visaged, 22-year-old Irma Grese, queen of the Belsen gang, and six others facing the gallows for tortures inflicted on concentration camp inmates will appeal their convictions.

A British announcement said yesterday 26 of the 30 defendants sentenced to imprisonment or death would appeal.

Resigned to death are Elizabeth Volkenrath, 26, head women's supervisor at Belsen; Juana Dorman, 42-year-old fanatic who gave up mission work to join the SS, and Franz Hoeszler, who commanded the women's compound at the Oswiecim death camp.

Dr. Fritz Klein, who chose Oswiecim gas chamber victims; Peter Weingartner, Ansgar Pichen, Karl Francoih, Wilhelm Dorr and Franiz Starfle all will appeal death sentences.

# REVOLT HITS IRAN IN RUSSIAN REGION

By The Associated Press

TEHRAN, Iran, Nov. 19—Armed members of the Separatist Democratic party — revolting against Iranian government authority in territory garrisoned by Soviet troops—were reported today to be advancing down the 230-mile long railway from Mianeh to Tehran.

Three towns with Iranian garrisons were reported to have been isolated in two days of fighting in the northern province of Azerbajan. The insurgents also were said to be threatening Zenjan and Kazvin, 165 and 40 miles northwest of Tehran.

A high ranking Iranian officer described the situation as "desperate."

An Iranian government spokesman said the insurgents' drive toward the nation's capital was launched after the Separatists seized control of Mianeh. One Iranian gendarme captain, four soldiers and two railway station employes were killed, he added.

Separatist forces in Mianeh severed communications with Tehran and Tabriz, the spokesman declared. He explained the insurgents were dressed in civilian clothes.

The Iranian council of ministers instructed War Minister Gen. Riazi and Chief of Staff Gen. Ibraham Arfa to ask the Russian military attache for an explanation of the situation.

The Iranian spokesman said rifles and machineguns were distributed to the Separatists from trucks bearing Russian army insignia. There was no indication Russian troops were manning the trucks.

### YOUTHS ADMIT THEFTS

# English-American Tiffs with Russia Worry MacKenzie

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

Alexander Scrolov, writing in the Moscow trade union magazine "New Times" declares that the atomic bomb "has served as a signal for incorrigible reactionaries of the whole world to begin a riotous agitation against the Soviet Union."

This is the most outspoken comment to come from Russia regarding the feeling there about the bomb, and it serves to emphasize the delicacy of the present international situation. Relations among the Big Three — between Russia on the one hand and the western allies on the other—continue to be uncomfortable. There are serious differences of opinion and there are suspicions which are doing great damage to cooperation.

D. Mackenzie

Of course, the atomic bomb isn't the only matter of difference between the Anglo-American combination and Russia. There are the arguments about Japan, and about Bulgaria and Romania. And there are other difficulties.

Differences are bad enough, but they might be susceptible of solution if they hadn't given rise to a crop of suspicions.

One begins to wonder seriously whether the Allies, having won the war through vast sacrifice, are about to throw the victory away. It's strange that Allies who stood shoulder-to-shoulder during the terrible years of conflict on the battlefield, should now find it so hard to reconcile their differences.

### Back To Gettysburg

Coming to work this morning I was talking about the position with my friend Pat Barnes—the entertainer you hear regularly over the air. Pat reminded me that this is the anniversary of Lincoln's speech at Gettysburg and that this immortal address contains food for thought in the present critical situation. You well know the lines:

"It is for us the living to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us — that from these honored dead we take increased devotion to that cause for which they gave their last full measure of devotion. x x x."

Was all the sacrifice of the war waste effort? It hadn't seemed so up to this point, but the Allied difficulties certainly are creating a serious situation. The consensus is that only way to relieve this is for all the Allies to get together and table their cards —say what they want for themselves and what they don't want for the other fellow.

It is to be hoped that the atomic bomb commission of the United Nations organization can get into action in the near future to allay the distrust which Russia has about this weapon. There is no question but that this is a large item in the strained relations. With that out of the way, it may be possible to deal with the other knotty problems.

### TWO BROTHERS ARRESTED

A fight between two brothers, Leroy Bell, 19, and George R. Bell, 23 of near Caledonia resulted in the younger brother being admitted to City hospital for treatment of head injuries and both of them being arrested on intoxication, disorderly conduct and resisting charges, according to police reports. The arrest was made yesterday at 2 a. m. on South State street when police said they found them engaged in an argument.

# COACH ASKS RETURN TO ASSISTANT'S POST

## Petrich Requests End of War Duration Assignment.

E. E. Holt, city school superintendent, reported today that on Nov. 5 he had received a request from Joseph F. Petrich, head football coach at Harding High school, for return to his former position as assistant coach.

Mr. Holt said Coach Petrich asked that his written statement not be made public until the end of the current football season.

The board of education was informed of the request today, Mr. Holt said. Action to fill the vacancy as head coach will be taken at a meeting of the board Dec. 3. Reorganization of the Harding coaching staff will be considered at this meeting.

Petrich's statement was given to Mr. Holt nearly a week before the Harding game at Sandusky Nov. 9. It follows

"I should like to be relieved of the duties of head football coach as of the end of this season. When I accepted this position it was with the understanding that I would do so for the war's duration, and until other members of the coaching staff, who have entered the service, return.

"Now that hostilities have ceased and these members have returned I should like to return to the position I held formerly, that of assistant coach. I feel that as such I could be of greater help."

Mr. Petrich has been in the city school system for six years, starting as an instructor and then coach at Edison Junior High school.

For two years he was assistant to former Coach Vic Dorris. He assumed the head coaching position when Dorris entered the army. In addition to his coaching duties Petrich teaches mechanical drawing at Harding High school.

BASKETS of white pompons against a background of fern foliage decorated the altar in the First Presbyterian church for the wedding of Miss Nancy Monnette Wright, daughter of George A. Wright of 478 Mt Vernon avenue, and Thomas B Wilson, petty officer, U. S. Maritime Service, son of Mr and Mrs Leo [illegible] Delaware, Saturday afternoon. The ceremony was read at 4:30 o'clock by the pastor, Rev Howard L Olewiler, in the glow of myriads of tall white tapers held in five and seven branch candelabra.

Preceding the bride to the altar were her attendants Miss Mary McNeal, who was the matron of honor, and Miss Nancy Ware of Chillicothe, a sorority sister, and Mrs. James C. Woods Jr., bridesmaids. Their gowns, fashioned alike were of American Beauty jersey. The tight bodices, accented with bertha collars and long sleeves and long [illegible] All carried bouquets of white pompons with loops of wide ribbons, and narrow ribbon streamers.

Mr. Wright escorted his daughter to the altar and gave her in marriage. Her bridal gown was of heavy duchess satin fashioned with a tight bodice and bouffant skirt. The drop shoulder was outlined with a French puff sleeve in white sequins and net bread and had long sleeves ending in points over the wrists. The net was gathered to the bodice with a large satin bow draped to one side and terminated in a long train. Her tiered bridal veil of imported candlelight tulle was held in place by a satin [illegible] and seed pearl trim. Her bridal bouquet held gardenias centered with an orchid. She carried [illegible] bridesmaids in many previous ceremonies.

Lawrence E Nelson of Detroit, warrant officer, U. S Maritime Service, served as best man for the bridegroom and ushers were James Johnson and Eugene Peebles of Delaware, Lt J. C Bolinger and Marr McNeal.

The candles were lighted by Miss Bette Bozman of Newark and Miss Ruth Wise.

Preceding the ceremony Mrs Eliza Williams, organist, played a program of nuptial music. Her selections included 'Largo,' Handel, 'I Love Thee,' Grieg, 'Ah! Sweet Mystery of Life,' Herbert, 'Intermezzo' Provost, 'Liebestraum,' Lisst, 'Thine Alone,' Herbert, 'Delta Night of Love,' Snethen, "Because," D'Hardelot, and "Oh Promise Me,' DeKoven.

At Hotel Harding where Mr Wright was host to 200 guests at a reception, the ballroom was decorated with tall baskets filled with white pompons and greenery. Mrs. Wilson, mother of the bridegroom, received in a gown of white crepe with silver sequin trim, and wore a purple orchid in her hair.

The bride's table, in all white, held the traditional wedding cake encircled with maidenhair fern and white malina, and the buffet table had a centerpiece of white pompons and was lighted with tapers in crystal holders.

Assisting were Mrs J. A Dodd, Mrs. Carl E. Danner, Mrs. Mabel C. Owens, Mrs F. S McNeal, Mrs Anna K. McCarthy, Mrs Howard R Mapes and Mrs Charles Rinehart.

When the couple left on a wedding trip through the south the bride was wearing a two piece suit in a chartreuse shade with which she combined a black Mary Queen of Scots hat and black accessories. Pinned to her shoulder was the orchid from her bridal bouquet.

The bride is a graduate of Ohio Wesleyan [illegible] and a member of Delta Delta Delta sorority. Warrant Officer Wilson attended Ohio Wesleyan university and is a member of Phi Gamma Delta fraternity. He will report by [illegible] upon their return from their wedding trip.

At this time the bride-elect presented her attendants with gold necklaces and Warrant Officer Wilson gave his best man gold cuff links and tie clasp and presented the ushers with silver coin clips.

MRS B PETERSON and Mrs Richard Morgan entertained with a dessert bridge Thursday evening at the home of Mrs. Morgan at 425 South Grand avenue, for the pleasure of Miss Pauline Stannard, whose marriage to Francis H Drake will take place Nov 22. First and second awards in bridge were won by Miss Neil Freer and Miss Doris Weber and Mrs. James H Smith was consoled. Miss Stannard received her gifts in a large express box delivered by a messenger.

## MARION ATTENDANCE AT U. B. SESSION LARGEST

**65 from Here at District Meeting in Sycamore.**

First U B church at Marion won the attendance banner at a district meeting at Sycamore Sunday night. Total district attendance was 339. Marion's group numbered 65.

Brotherhood and youth sessions were held followed by a mass meeting in which Dr J. Gordon Howard, president of Otterbein college at Westerville, spoke. The meeting was held at the Sycamore High school with the Sycamore U. B. church as host. For the Brotherhood session C E Wilhelm of Bucyrus presided and Frank C Grandey of Toledo, conference Brotherhood president, spoke. At the youth session Dr Wade Miller, chairman for the Otterbein college centennial celebration, spoke, a girls' quartet from Bucyrus sang, Miss Lois Cress of Bucyrus offered prayer and a musical number was given by the Liberty chapel group. Miss Agnes Cole of Crestline, president, presented her resignation which was accepted, and James Craven of Marion, vice president, took charge. A total of 175 young persons were present, with 27 attending from Marion. The next meeting will be Feb 17 in North Robinson.

## ABOUT ANYTHING

### In and Around Marion

***Acrobatic Mouse***

We always thought that acrobatic mice were only seen in motion picture cartoons, but not any more. The other night we walked unexpectedly into the kitchen and caught a mouse flat-footed away from its hiding place. The miniature rodent took a flying dive in an attempt to get out of sight, skidded a few inches on the waxed linoleum, tried to turn a sharp corner and ended up in a rolling scramble. It finally made the corner.

***Another Engine Needed***

Our four-year-old calmly informed us recently that he had picked out another fire engine when given his preference for a new toy because "every fire station has at least two engines."

• • •

***Lighter Not a Match***

One of those embarrasing moments was cited to us last night. Seems as if an office worker was busy taking orders over a telephone and he started to light a cigaret. The smoke was lit so the worker nonchalantly tossed away his lighter, thinking it was a match. Now every time he starts to smoke, his fellow workers remind him not to throw away the lighter.

## Former Residents Here Announce Daughter To Wed

OF INTEREST here is the announcement being made by Mr and Mrs Edmund H Keller of 103 Et [illegible] street, Pleasantville, R. I., former residents of Marion, of the engagement of their daughter, Miss Margaret Hope Keller, to Lt William John Hanna Jr USNR.

Miss Keller attended Lenox school and was graduated from the Knox school at Cooperstown, N Y She made her debut in the 1942-43 Debutante Assembly and is a member of the Junior League of Providence. She is the granddaughter of Mrs Carolin T Keller of Providence, formerly of Marion, and the late Frank S Keller of this city.

Lt Hanna is the son of Mr and Mrs William John Hanna of Hollis, Long Island, N Y. A graduate of Columbia university, he is now stationed at Davisville, R I, after serving two years in the South Pacific.

Mr Keller resigned recently from a position with the War Production Board.

## Personal Mention

Mr and Mrs Mark Dalton and daughter, Eileen Jo, returned to their home in Cincinnati today after several days visit with Mrs Dalton's parents, Mr and Mrs T J. Keegan of Short street. Mr Dalton returned recently from more than two years service in the Pacific theater with the Seabees.

## E. Church St. Couple Injured in Accident

Mr. and Mrs. George Keltner of 1065 East Church street suffered injuries when the car in which they were riding skidded and crashed on a road approximately four miles southeast of the city limits at 4 a m yesterday. Both were taken to City hospital in the M H. Gunder and Sons ambulance. Mrs Keltner suffered a fractured pelvis and was reported by hospital authorities to be in "fairly good' condition today. Mr Keltner sustained a fractured rib and collarbone. He was treated and released.

A Columbus couple with Mr and Mrs Keltner in the car were uninjured.

Why do they think of Lennon's when folks think of LINOLEUM?

Answer—

Because Lennon's sell beautiful kitchens and bathrooms.

Because Lennon's expert mechanics are trained in the Armstrong school.

Because a Lennon installation will save many hours of hard work. Stops scrubbing.

You've Got To Have a
MODERN KITCHEN

We will make yours a kitchen as beautiful and as easy to run as the one pictured above.

No matter what your space—large or small—light or dark—we'll work out an ideal work-step-and eye saving plan. A plan that is built to fit your own home and your needs.

Perhaps it may require only a wall cabinet or two. Maybe just a new sink front. We'll tell you honestly. If you want the works—linoleum top enclosed sink with a whole bank of cabinets, in a unit to include range and refrigerator—we'll draw up a plan and submit it to you.

We can build fine Keystone Cabinets of any shape and size or you may choose from ready-built cabinets for floors and walls. It makes no difference what size sink you may want—our large stocks give you unlimited choice.

Come in and let us talk it over with you. You are bound to be as pleased as you have been with our Armstrong Linoleum installations.

## Enlistments in Navy Are Reported Here

Starting his second "hitch" in the U. S. Navy Darrold Dale England of Nevada has reenlisted in the regular Navy for two years, according to R. L. Crawford, yeoman 1/c, in charge of the local Navy recruiting station. Discharged Oct. 26 at Great Lakes under the point system, England is holder of the American campaign ribbon, Asiatic-Pacific award with four stars, the Philippine Liberation commendation, and the European theater ribbon. He was sworn in at his old rating of ship's cook second class.

Crawford also announced the enlistment of Richard Smith, 17, of 159 Waterloo street; William Howard Byrd 17, Donald Raymond Gier, 17, of 630 Lee street; and Emmett Elwood Shuster, 20, of 692 Uncapher avenue. These men were sworn in and are now starting their "boot" training.

Enlistments are open to men 17 to 30 years of age with service optional for 2, 3, 4, or 6 years.

## DEMAND FOR CATTLE HOLDS HIGH LEVEL

By The Associated Press

CHICAGO, Nov. 19—Demand for slaughter cattle remained at the highest levels of the year last week despite the approach of Thanksgiving and the ample poultry supply, which under normal conditions would cause a curtailed trade.

The average steer cost hit an all-time high at $17.05 last week and new top price levels for the season also were established by both slaughter steers and heifers.

A record movement of feeder cattle into the leading corn belt feeding states during October was reported by the United States department of agriculture. Prices, which had been on the decline since July, also advanced to the highest average cost for any October on record.

The keen demand continued through the first week in November and the average prices at four big middle western markets stood at $12.95 against $12.80 in October and $11.48 for the same period in 1944.

# Six New, Six Old Coaches Drilling Rural Cagers for Season Openers Next Week

By DON C. BURTON

Six new coaches and six veterans will be directing teams in the Marion County Basketball league, which opens play Nov. 30. Newcomers are A. B. Augenstein, Caledonia; Marion Porter, Pleasant; Donald Woods, Meeker; Frank Furniss, Waldo; Harry Alexander, New Bloomington, and Lee Burton, LaRue.

The new entrants are Norman C. Roettiger, Green Camp; Robert McFarlan, Morral; George Reed, Prospect; Paul Kuhlman, Kirkpatrick; J. W. Salisbury, Caledonia; and Dale Porter, Morral.

Augenstein is the dean of the group having been a Claridon for many years. All are not strangers to the players of the league. Augenstein always presents a strong defensive setup and a team well versed in good fundamentals. He prefers to play a slow game and wait for good scoring opportunities. Porter is a newcomer to the league and his teams are known for their fast breaking attack. He likes to work his plays from the center. His teams are also known to respond to opportunities. They seldom do opponents succeed in speeding up the game and converting it into a track meet. He always features a good passer who can score and good passers to feed the ball into the defense. It is unusual for Claridon quintets to take shots at the hoop. His defenses are always zone.

**Pleasant Likes Speed**

Merton Porter's Pleasant teams are of the contrasting variety. Porter likes to throw the leather and trade shots with the opponents. He stresses the fast break and one hand shooting on the run. Pleasant always has two or three deceptive fakers who are good shots. They must be covered tight at all times. With fast passing they frequently tally on quick breaks. Fans are always in for a night of action when Porter's team hits the floor. In most of the games Pleasant plays a man for man defense but are also able to play a creditable zone if the opponents are weak against that type of play.

Frank Furniss' teams at Waldo are usually of the fast break variety and good shots at the hoop. Playing home games on a very small floor dictates that Waldo use a zone defense. Furniss usually has a high scoring center and two fast forwards who can drive for the basket. They seldom shoot set shot from far out on the floor.

Coach Alexander at New Bloomington plays an aggressive zone defense. His teams are always good shots at the basket and cash in on fast break situations. Rebounding is another of the New Bloomington traditions. Ball hawking and getting jump balls also distinguishes the Alexander coached quintets. There is no rule against shooting when the New Bloomington team hits the floor, as all five can and do fire away from all angles.

**LaRue Opportunists**

Burton's teams at LaRue always play man for man, sometimes picking the opponents down the floor and dogging them all the way to take advantage of ragged ball handling and at other times retreating near the baskets to cover potential scorers. A set-fast break is used against good opponents. Spreading tactics are used against a team for man type of defensive action. Against a good man near the basket, Agnew's zone, fast pass and retreat to the rim of the defense is used to place the defense shift, trying to open a man near the basket is the method used.

Dennis Woods at Meeker is handicapped by having very few boys in school from which to build a winning team. The floor at Meeker is very narrow and has a low ceiling which also handicaps Woods from developing boys who can shoot long. His teams use a 2-2 zone defense and shoot one handed at all times.

Very little is known about the styles of play used by the new mentors, but some have had a great deal of experience in the net game. Caledonia's Salisbury took a team to the Class B state tournament and it is expected that the Donians will improve their standings in the loop race.

**Floor Is Handicap**

Roettiger the new Green Camp tutor has had several years experience as a basketball coach and the Green Campers should play an interesting game in the league this year. The Campers are handicapped by a match box floor as is also Caledonia.

George Reed the new cage teacher at Prospect has had several years experience at other schools and should present an interesting team.

Paul Kuhlman at Kirkpatrick is also the superintendent of schools, filling in because of the lack of an experienced coach, but as he has several good boys returning a fine team is expected from Kirk.

Dale Porter at Martel, is also the school head doubling in brass and is handicapped by a small floor but several good players are back and an improved team is expected from the Martel cagers.

At Morral, the new coach, Robert McFarlan declines to make any predictions about how his team will finish. The squad will be more or less a dark horse, with no returning veterans listed, but if past performances of this school's entries mean anything, Morral should turn out a good contender.

# RAMS RISK LEAD IN PRO TILT THURSDAY

By The Associated Press

CHICAGO, Nov. 19—This is touchdown week in the National Football league race with the surprising Cleveland Rams and the rollicking Washington Redskins within grasp of the western and eastern divisional titles respectively.

The Rams risk their 7-1 record against the second-place Detroit Lions (6-2) in a Turkey day mix at Detroit. A Ram victory would clinch the western division for Cleveland in the 10-game championship race.

The Redskins (8-1) can assure themselves of at least a tie for eastern laurels by whipping the Philadelphia Eagles (1-2) at Philadelphia next Sunday. Once past the Eagles, Washington meets the hapless Pittsburgh Steelers and the New York Giants.

## Thanksgiving Holiday Card at Armory

The Armory wrestling card Thursday will be a prelim, a tag team match with two 30-minute matches preceding it. The one team will be Sgt Billy Fox, ex-marine, and Tony Dobie of Montreal. The other team will be Johnny LaRue, the Texan who appeared here once before since his discharge from the army, and Alex Kasaboski. The other thirty minute match will be Tony Kasaboski against Alex Kasaboski. The first two matches will be one fall, while the tag team bout will be for the best two out of three falls, with a 90-minute limit.

**NO. 1 HORSE OF U. S.**

By The Associated Press

NEW YORK, Nov. 19—Busher, glamour gal of the turf, probably is putting on her special pancake makeup and Chanel No. 5 to receive the horse of the year honors. Two of her chief rivals, Stymie and Pot O'Luck, were defeated in the $25,000 winner-take-all Pimlico Special and now Busher, movie-man Louis B. Mayer's three-year old filly, is the front-running candidate for top horse of 1945.

# Y-INDUS WINS OVER FINDLAY FIVE 53-32

The Y-Indus Club Saturday night gave the Findlay Merchants their first setback in five games by a 53-32 margin. In the first half Findlay used a zone defense, and the home team proceeded to hit spot shots running up a half time score of 32-8. In the third quarter the fast moving Findlay team played an aggressive rushing game, outscoring the home team, 18 to 5. In the last quarter the Marion team again run up a comfortable margin. The Y-Indus will return the game either Friday or Saturday of this week.

By HUGH FULLERTON JR.

NEW YORK, Nov. 19—Army's Glenn Davis finally spent a day on the bench, but it took a judge to get him there. Glenn and his teammate, Jim Rawers, were guests of Chief Magistrate Edgar Bromberger in the New York felony court yesterday . . . The Indiana football team had to travel in three groups to reach that mud bath in Pittsburgh Saturday. And when the squad finally were assembled for practice the Hoosiers found the keys to the equipment trunks were in the possession of a student manager who had been left behind in Bloomington.

**Cleaning the Cuff**

Warning to the Big Ten: That Indiana football squad will return virtually intact next year . . . If Whizzer White, now chained to a Navy desk job in Washington, gets out of uniform by midsummer, you can expect him to play another year of pro football. Whizzer still has a year to go at Yale law school.

# NATIONAL PENNANT STILL UP IN AIR AS SEASON NEARS END

## Bowl Teams, Conference Winners To Be Determined in Closing Tilts.

By The Associated Press

NEW YORK, Nov. 19—The national championship, several sectional races and the confused bowl situation today remained to be cleared up as the collegiate football campaign neared its end.

Army and Navy went into training for their championship clash in Philadelphia Dec. 1, but the Big Ten, Big Seven and Big Six chasers were slated to be decided Thursday and Saturday. The bowl picture became cloudier than ever today after the surprise defeats of St. Mary's, Holy Cross and Penn State Saturday.

Heading the list of contenders for the post-season contests were the four major unbeaten and untied elevens — Army, Alabama, Oklahoma A. & M., and Virginia Army, which rolled to its 17th straight victory in two years by trouncing Pennsylvania 61-0 Saturday, topped the field for the Rose Bowl bid. Major General Maxwell D. Taylor, superintendent at West Point, said Saturday he was considering the matter although he emphasized the Army had not received even a feeler for a New Year's day game.

**Rams Gets Title**

Alabama captured the Southeastern title by walloping Vanderbilt 71-0 and still has two games to go.

Oklahoma A. & M. also became a much sought after club following its 46-6 whipping of a good Texas grid squad. The Aggies wind up their campaign Saturday against Oklahoma.

Virginia became a desirable bowl attraction with is unblemished record. The Cavaliers head into the rocky end of their season this Saturday and the week after when they meet Maryland and North Carolina in order.

U. C. L. A.'s last quarter win over St. Mary's made easier the problem of selecting a western representative for the Rose Bowl. The Uclans can clop the nomination by beating California this Saturday and by taking the Trojans in their repeat game Dec. 1.

Although they suffered their first defeat in their finale against U.C.L.A. the Gaels of St. Mary's were considered to stand a firm chance of landing a bowl invite down south.

**Missouri Near Title**

Missouri, which nipped Oklahoma 14-6, can clinch the Big Six flag against Kansas Saturday. In the event of an upset, however, Oklahoma could tie for the bunting.

The Southwest conference, which sends one representative to the Cotton Bowl, had Texas in undisputed possession of first place but the race was far from decided. Here's the way the leaders run now: Texas 4-1, Rice 3-1, Texas A. & M. 3-2, Southern Methodist 2-2 and Texas Christian 2-2.

The Southern conference tilt fight could be cleaned up Saturday if Duke conquers North Carolina. The Blue Devils lead the loop followed by Clemson.

**LEETONIA CLAIMS TITLE**

By The Associated Press

LEETONIA, O., Nov. 19—Leetonia High school laid claim today to the mythical Class "B" state football championship after defeating Copley High 46 to 6 at Salem Saturday night. The victory gave Leetonia a season record of nine victories and one tie and broke up Copley's winning streak of 17 games in two seasons. Leetonia hasn't lost a game in Class "B" competition in four seasons.

**TO PLAY AT ILLINOIS**

By The Associated Press

COLUMBUS, O., Nov. 19—The 1946 Ohio State-Illinois Western conference football game will be played in Memorial stadium at Champaign, Ill.—for the first time in six years. The 1942 and 1944 Illinois "home games" were transferred from Champaign to Cleveland.

**BANK TELLER SUICIDE**

CINCINNATI, Nov. 17 — Dr. Frank M. Coppock, Hamilton county coroner, has returned a verdict of suicide in the death of David J. Folz, 63, chief paying teller of the Cincinnati First National bank.

# Two Big "Ifs" Lie Between Bucks and Big Ten Pennant

## O. S. U. Must Crush Michigan and Purdue Topple Hoosiers in Conference Wind-up Saturday.

BY HAROLD HARRISON
Associated Press Sports Writer

COLUMBUS, O., Nov. 19—Ohio State's fourth period football team packs all of its eggs in two baskets this week and hopes they hatch a second straight Western conference championship.

The Bucks clash with Michigan at Ann Arbor in another renewal of their long gridiron rivalry.

The remainder of the title hopes rest with Purdue's Boilermakers who meet Indiana at Bloomington, Ind. A Purdue victory would give the championship to the winner of the Ohio-Michigan contest. An Indiana triumph would clinch the crown for the Hoosiers.

**Plenty of Optimism**

There was plenty of optimism in the Ohio camp today over what the Bucks might be able to accomplish. Even Coach Carroll Widdoes said the team played its best game of the season "except maybe against Minnesota" when it trimmed Illinois Saturday, 27 to 2.

Once again it was the fourth period that clinched the verdict. The Bucks had only a 7 to 2 margin going into the final heat but three touchdowns in the last [illegible] minutes did the job comfortably.

In winning seven of its eight games, Ohio State has scored 189 points and 85 of them have been tallied in the fourth period. The team has scored 122 of its 189 points in the last two periods.

Only Missouri and Northwestern have held the Bucks scoreless in the fourth quarter, and, after Missouri, Widdoes used reserves but third and fourth stringers.

Ohio started out against Illinois as if it intended to make a rout of the game. The Bucks ran up 67 yards to touchdown territory

# OHIO GRID SEASON CLOSES THIS WEEK

## State, Miami, Cincy, Wilberforce Only Teams Playing.

By The Associated Press

COLUMBUS, O., Nov. 19—The 1945 football season was being made a matter of history today for all of Ohio's colleges except Ohio State, Miami, Cincinnati and Wilberforce.

Cincinnati and Miami clash at Cincinnati Thanksgiving day and Ohio State and Wilberforce close out their campaigns Saturday, State meeting Michigan and Wilberforce tangling with West Virginia State.

Final games in the Ohio conference last week-end saw Ashland clinch fifth place in the loop by drubbing Kenyon, 25 to 0, and Wittenberg moved into a tie with Denison for the seventh spot with a 25 to 12 conquest of Heidelberg.

Oberlin, which finished its season a month ago with eight straight victories, grabbed off the league championship two weeks ago when Otterbein tripped Capital.

Capital, however, took the runner-up spot. Baldwin-Wallace and Muskingum finished in a percentage tie for third and fourth but Baldwin-Wallace held at least a technical edge since Muskingum also had a tie to mar its record in addition to one defeat.

Ohio university, Otterbein and Wilberforce chipped in with triumphs over out-of-state foes to uphold the Ohio gridiron prestige.

Ohio university was a 14 to 0 victor over West Virginia to finish its season with three triumphs and four defeats. The Bobcats were beaten decisively only by Miami but this was their first losing season since Don Peden began coaching them 22 years ago.

Otterbein scored two first period touchdowns to nip Albion (Mich.) 12 to 7. The Cardinals finished with four victories, two defeats and two ties and the triumphs came in the last four games of the season.

Wilberforce never was pressed in its 52 to 6 decision over Philander Smith of Little Rock, Ark.

**TIE FOR GOLF MONEY**

By The Associated Press

MOBILE, Ala., Nov. 19—A former Air Corps sergeant from Little Rock—Dutch Harrison—an ex-major league outfielder who lives in Detroit—Sam Byrd—fight out a tie today over the Mobile Country club course for the $2,000 Victory bond first prize money in the Alalea Open golf tournament.

the first time they got the ball. Hal Daugherty scored the marker from the 11-yard stripe.

**Illini Get Tough**

The Illini then called a halt to the scoring. In the third period they did a little threatening in their own, having a first down on the 10-yard line but Ohio held for downs. Bob Dove, trying to punt from behind the goal line, dropped the ball and was tackled for a safety to cut Ohio's margin to two points.

That's the way the game stood until the Bucks got their fourth period second wind. Ollie Cline scored two touchdowns in the first seven and a half minutes of the quarter, going over from the one-yard line and then again on a one-yard run. There was less than a minute to go when Paul Stephaus passed from the Illini 4 to Chuck Gandee for the final points.

The crowd numbered 70,237 enough to establish a new home attendance record for the season of 378,827. The old record of 336,802 was set last year on six home engagements.

# All America FUTURE BOOK

By Chip Royal

By The Associated Press

As All-America time draws near, keep an eye on Herm Wedemeyer of St. Mary's, Dick Duden of Navy, Hank Foldberg of Army and Warren Amling of Ohio State. Week after week, the Gael's great back, the rival ends at Annapolis and West Point, and the Buckeyes' guard have been nominated for top honors. These four gridiron stalwarts have been making it tough for all foes. Opposing coaches rate them the best men for their positions.

## 4 Hunters Arraigned in Union Co. Court

Special to The Star

MARYSVILLE, Nov. 19—Four hunters were arraigned before Justice William H. Snodgrass over the week-end on charges of game law violations.

Gilbert Douglas of Richwood pleaded guilty to a charge of shooting a coon outside of the hours set by law and Alfred H. Hill of Richwood pleaded guilty to having the pelt in his possession. Both men were fined $25 and costs.

Earl Weaver and Roy Smith, both of Columbus, pleaded guilty to hunting on property without written permission of the owner and were each fined $10 and costs. The arrests were all made by Union County Game Protector Eldon Sturgeon.

## HEALTH

(Continued from Page 1)

jectives of our economic bill of rights."

**Distributes Cost**

The President recommended that the problem of making necessary medical and hospital services available to all the people be solved "by distributing the costs through expansion of our existing compulsory social insurance system."

Asserting this "is not socialized medicine," the President added: Insurance knows how the law of averages is made to work so as to spread the risk, and to benefit the insured who actually suffers the loss.

"If instead of the costs of sickness being paid only by those who get sick, all the people—sick and well—were requested to pay premiums into an insurance fund, the pool of funds thus created would enable all who do fall sick to be adequately served without overburdening anyone."

The system of repayment the President said, should cover medical, hospital nursing and laboratory services and should "also cover dental care—as fully and for as many of the population as the available professional personnel and the financial resources of the system permit."

The President said the system must be highly decentralized in administration, although the health fund should be built up nationally" to establish the broadest and most stable basis for spreading the costs of illness, and to assure adequate financial support for doctors and hospitals everywhere."

**Seeks Early Action**

"If we were to rely on state-by-state action only, many years would elapse before we had any general coverage," he added.

Asserting premiums for present social insurance benefits are calculated on the first $3,000 of earnings in a year, the President said it might be well to have all such premiums, including those for health, calculated on a somewhat higher amount, such as $3,600.

"A broad program of prepayment for medical care would need total amounts approximately equal to four per cent of such earnings," the President continued. "The people of the United States have been spending, on the average, nearly this percentage of their incomes for sickness care. How much of the total fund should come from the insurance premiums and how much from general revenues is a matter for the congress to decide."

Mr. Truman said the plan would be sufficient to pay more doctors "more than the best they have received in peacetime years," and that the doctors, with their payments guaranteed, would be "spared the annoyance and uncertainty of collecting fees from individual patients."

"We are a rich nation and can afford many things," the President declared. "But ill health which can be prevented or cured is one thing we cannot afford."

No effort was made to count roving Indians in the first U. S. census in 1790.

# MOTOR STOCKS LEAD RETREAT

### New Price Ceilings, Labor Troubles Combine To Set Off Selling.

By The Associated Press

NEW YORK, Nov. 19—Lower prices ruled today's stock market as motors led a retreat in the wake of the OPA new car ceilings and the imminence of a labor crisis in this field.

Dealings quickened after the opening but slow-downs were plentiful. While scattered gainers dotted the ticker tape near the fourth hour, losses to more than three points were widely distributed. Steels, rails and most utilities were under pressure.

General Motors opened on a 1,200-share block, off 1, and Chrysler was down 2 on a 600-share trade. Both eventually about doubled this decline. Conspicuous on the slide were U. S. Steel, Bethlehem, Southern Pacific, Great Northern, Santa Fe, Du Pont, Electric Power & Light, Johns-Manville and Douglas Aircraft. Resistant were Studebaker, Philadelphia & Reading Coal & Iron, U. S. Rubber, United Aircraft, Glenn Martin, Boeing and Onio Oil.

# RYE FUTURES SOAR TO SEASONAL HIGHS

By The Associated Press

CHICAGO, Nov. 19—December and May rye futures contracts soared the 5 cent a bushel limit to new seasonal peaks on short-covering and buying influenced by the scarcity of the grain and sharp gains in rye futures at Minneapolis.

Other grains were lower most of the session, but advanced near the close on the influence of the rye strength.

December rye sold as high as $1.92½ a bushel, the highest price in about 25 years. It was 11⅝ cents higher than December wheat which is stopped by a ceiling of $1.80½.

### RETURN ENGAGEMENT

By The Associated Press

FORT DOUGLAS, Utah—The tug of familiar scenes and $300 in cash were too much for Pfc. George Gorman. Honorably discharged here, Gorman, a veteran of World War I, strolled about the post, visiting old friends, and then headed for the enlistment office. He explained he knew all about the new regulations authorizing him a cash reenlistment allotment of $50 for each of the six years since his last enlistment.

## Pays Your Nickel, Parks Your Horse

By The Associated Press

MOUNT VERNON, Ill. — An equestrian reined in his horse, dismounted, deposited a nickel in a town square parking meter and strode away. A crowd gathered. Policeman Charles Simmons, taking over, restrained anyone from carrying out a suggestion that the horse be removed.

Said Simmons: "This man paid his nickel to hitch and others pay theirs to park."

Behind Your Bonds

Lies the Might of America

**LIVESTOCK IN KANSAS**

Despite the general opinion, livestock, and not wheat, is a chief source of income in Kansas. This state also has the largest broom corn market and is first among all states for flour milling, averaging more than 13,000,000 barrels each year. Such diversified production helps build the wealth of a great nation. The Bonds of that nation are the world's soundest investment.

# HEALTH SEALS GO OUT TODAY

### 5,700 Marion Co. Residents To Receive Call in Anti-Tuberculosis Drive

Approximately 5,700 letters containing the 1945 Christmas health seals went into the mail over the week-end for delivery today to homes in Marion city and county in the interest of the prevention and cure of tuberculosis. As in former years the local seal sale is sponsored by the Marion County Anti-Tuberculosis association of which Dr. E. L. Brady is head.

The letters contain seals in amounts of two to $15 and as in former years health bonds in amounts of $5, $10 and $15 are being mailed to organizations who annually contribute to the health promotion program.

In fighting tuberculosis early diagnosis is a major preventive and that is why skin tests and X-ray tests occupy such an important place in the anti-tuberculosis program, the sponsors point out Since Jan. 1, this year 1096 X-rays have been taken in the county, 1 904 skin tests made in the schools and at the clinic, 12 clinics have been held and 100 persons have received fluoroscopic tests. Fifty-eight positive cases and 223 suspected cases have been found in the county, according to the records of the association.

Skin tests are made in the schools by the staff in the office of the county health commissioner, Dr. N. Sifritt, and assisting are doctors from the office of the state board of health. Clinics are held each month at the city hospital with from 25 to 30 persons receiving examinations at each clinic. Two clinics are being held each month at present. The mobile X-ray unit spent some time here in June of this year when 814 persons were examined.

### Mrs. Blanche M. Barler of Cardington Dies

CARDINGTON, Nov. 19—Mrs. Blanche Marie Barler, 47, wife of C H. Barler of Cardington, died in Marion City hosital Saturday at 9:30 a. m. She was at the hospital four days. Born April 29, 1898, at West Point, O., she was a daughter of Nathan and Ella Snyder Taylor who live at Edison.

Surviving with her husband and parents are a daughter, Mrs Victor Cox of Ft. Wayne, Ind., a granddaughter and a sister, Mrs. Hiram Caris of Martel.

Funeral services will be conducted Wednesday at 2 p. m. in the Curl mortuary here by Rev. Eugene Rush of the Methodist church at Mt. Gilead. Burial will be in Mt. Gilead cemetery.

Piles Are Never "Mild"

DANGER IN NEGLECT

No one should ever think of piles (hemorrhoids) as a "mild" disorder.

Although they may seem a "mild" ailment, especially when not giving pain or inconvenience, piles are in fact tumor formation without tendency to heal themselves; instead, they are likely, if neglected to keep increasing in size, involving more and more of the rectal area.

Even a so-called "mild" case may be expected to undermine one's health, by inviting, predisposing to or aggravating other ailments, such as indigestion, biliousness, stomach trouble, constipation, headaches, pain in back and down the legs, secondary anemia with its run-down tired feeling, and general nervous irritability.

Removal of piles is the only permanent relief—written guarantee. My method produces little or no discomfort, does not require the use of knife or drugs, and seldom is the patient required to lose any time from work or other duties.

Why not call and learn of this method? The examination is free.

The NEW PONTIAC

Here's news about the new 1946 Pontiac for which you've been waiting:

The new Pontiac has *all* the quality, ease of handling, comfort and stamina which made prewar Pontiacs so popular *plus* many impressive improvements and refinements.

The new Pontiac is still in the low-price field and still loaded with *extra value features.* It continues to be the fine car with the low price. It is still available as a smooth running, powerful Six or an economical Eight—and both engines are interchangeable in the same chassis.

The new Pontiac, which is now here and on display, continues to be a style pacemaker, a quality leader. Even better than prewar models, it is *the finest of the famous "Silver Streaks."* You are cordially invited to come in and see the sparkling new Pontiac.

...WITH THESE IMPORTANT IMPROVEMENTS

New, beautiful exterior styling . . . Improved rust-resistant bodies . . . New instrument panel . . . Heavier chrome finish . . . New interior trim . . . Improved clutch . . . New wheel rims . . . Longer-life muffler and tail pipe . . . Improved cooling

THE BEER THAT MADE MILWAUKEE FAMOUS

How much can you pay?

What would you think if the clerk at your favorite store asked to see what you had in your wallet before he decided what to charge you for a shirt?—

*Or if, just because you happened to have some money saved up, you were asked to pay more than other people for a haircut, a movie ticket, or even such important items as rent, food and clothing.*

That's exactly the kind of reasoning UAW-CIO leaders are using in their wage demands on General Motors—

*They point to funds we have saved up over the years to expand and improve our plants and provide more jobs and more production. They say, "Give us that in higher wages."*

General Motors does not go along with that kind of reasoning. People should *not* have to *pay more* just because they have a savings account—

*For many years we have used our savings to expand capacity, create more jobs and provide greater values.*

And we intend to keep on doing just that. We are, at present, embarked on a very important reconversion and postwar expansion program. Our objective, now as always—to produce more and better things for more people.

# LOVE'S FAIR HORIZON

By ADELE GARRISON

LUCKILY, the door of the Philip Veritzen suite was at such an angle that for an instant neither Georges nor Gus could see Olga or me. And in that instant I stepped in front of Olga, but with my back to the two men alighting from the elevator, and murmured into her ear:

"Quick! Through the door and close it! Georges has just come up. I'll deal with him and let you know about it as soon as I can."

**Wasted No Time**

She wasted no time in answering me, and the door closed behind her as I turned to see Georges advancing toward me with a puzzled, annoyed look in his eyes.

"Wasn't that Her Majesty?" he asked in low tones, although Gus, standing back at the elevator, could not possibly hear him.

"Yes, it was," I answered shortly.

"Didn't she see me?" he asked next, and there was an imperious, displeased note in his voice.

"No, she didn't," I told him, "and I didn't enlighten her. She has worries enough on her mind already without dealing with any problems of yours or anybody's."

His face darkened, and his eyes were tense with anxiety as he answered me.

"She'll have plenty of worries if I don't find something I lost within the last hour or two," he said.

**Sudden Remembrance**

My pulse quickened at a sudden remembrance, but I kept a "poker face," and my voice was casual.

"There's a bare possibility," I said, "that I might be able to help you if I knew just what it was you lost."

He stared at me, then gave a short, unbelieving little laugh.

"There isn't a chance in a million that you can help me," he said with unconscious arrogance, and I visualized what a nice long set of scratches I could give the side of his handsome face with my fingernails if I could "busely give way to my lower nature."

"But I'll take that chance," he went on, "although I couldn't tell even you, if I didn't know that you are conversant with all of your father's plans."

**Insane Desire**

I had an insane desire to laugh, but repressed it valiantly. If he only knew how little I, or anyone, ever knew what the "Chief" was planning!

"I'm supposed to be 'deep as a well, and as safe as a church,'" I quoted flippantly, and he gave an uneasy glance in the direction of Gus, who plainly was in a listening attitude, then moved close to me with his back to Gus.

"I have lost some papers," he muttered, "with notes in code given me by Her Majesty; things which I am to memorize and pass on to Pietro if I ever meet him.

"The contents are so important," he said, "that I am to destroy the notes once I have memorized them. But now that they are lost, I do not know what to do. Your father has given me permission to come back and search for them, although I think he is most displeased at my losing them."

**No Chance to Comment**

I could well imagine that, I told myself, but I did not utter the thought aloud. Indeed, I had no chance to make any comment, for he was rushing on with his plaint.

"I cannot imagine where I have dropped them," he said, "for I always carried them on my person, but I cannot recall feeling them in my inside pocket where I always have carried them since Her Majesty gave them to me when I was packing my bags after that summons from your father."

"You didn't feel them in your inside pocket because you had dropped them before you packed your bags," I told him.

## YOUR HEALTH

By HERMAN BUNDESEN, M. D.

**Disorders of Skin**

Skin disorderes may arise from a variety of causes. One of the most common causes is allergy or oversensitivity to something with which the person comes in contact. One type of skin condition which is thought to be due to allergy is known as chronic urticaria or hives. Persons with hives may also have angioneurotic edema, a condition in which various parts of the body, such as the lips, suddenly become swollen due to a collection of fluid in them.

Doctor James H. Black of Dallas, Texas, over a three-year period treated more than 300 patients with chronic urticaria and angioneurotic edema. A careful study was made in all instances to determine, if possible, the substances to which these persons might be sensitive.

A search was also made for infections such as might be present in the teeth, tonsils and elsewhere in the body and these were eliminated when found. The methods of treatment mentioned above brought relief to about half of the patients.

The remainder were treated with vitamin K. Almost three-fourths of these patients were women and nearly all of them were young and middle-aged adults. The urticaria had been present for from one month to twenty years.

Most of the patients had an attack practically every day. The vitamin K was given by mouth. At first only small doses were employed, but later on the amount was increased until the quantity was found which would give results. The preparation was taken three times a day before meals.

As you may know, vitamin K is needed so that the blood may clot properly. It is possible, by making a test known as the prothrombin time determination, to ascertain whether or not a vitamin K deficiency is present.

More than three-fourths of those who had deficiency of prothrombin were relieved by the vitmin K treatment. In those in whom the prothrmobin time was normal only about one-third were relieved of urticaria by the vitamin K.

Of the patients relieved by treatment, almost a third had relapses following periods of freedom from the hives of from two weeks to eight months. A second course of treatment brought about prompt relief in every instance.

As a general rule, the treatment was continued for from one to four weeks but in many instances, the disorder cleared up after two days of treatment.

It would appear that in persons with chronic urticaria or hives in whom there is evidence of a vitamin K deficiency, the administration of vitamin K will bring good results in relieving the hives.

**QUESTIONS AND ANSWERS**

W. I.: Is it safe to use penicillin salve without a doctor's direction? I have an eye infection.

Answer: It would be better for you to use penicillin salve as your physician directs. There are some conditions in which penicillin may help, and others in which it may not be of any value. Your doctor will decide.

A. E. K.: Can you please tell me why tartar forms around the bottom of the teeth even though they are brushed daily? Is there anything that removes it?

Answer: Just why tartar forms around the teeth is not definitely known. There seems to be no way known of getting rid of it except to have it removed by the dentist.

# GET ANSWERS ON POSTOFFICE

### Request for New Building in Marion Receives Attention in Washington.

Marion's request for a new postoffice building, recently forwarded to the United States postal department by the Chamber of Commerce, has been promised attention in Washington.

Both United States senators from Ohio and the acting fourth assistant postmaster general, under whose jurisdiction the matter falls, have acknowledged receipt of the Chamber of Commerce's communication requesting improvement of postal facilities here.

A letter from F. J. Buckley, acting fourth assistant postmaster general, informed the Chamber that the postal department will have a federal building survey made in Marion and any construction found necessary will be considered in the distribution of funds for public building construction contemplated in pending legislation.

**Senators Write**

Letters also were received from Senators Robert A. Taft and James W. Huffman in which they said they would consider the matter with postal authorities.

The movement to obtain a new federal building for Marion recently was launched when the Chamber of Commerce passed a resolution requesting the improvements. Copies of the resolution were forwarded to postal authorities and the two Ohio senators.

To keep in touch with developments Robert E. White, Chamber president, has assigned the matter to the civic affairs committee of the Chamber. First Vice President Robert T. Mason will act as spokesman for the board of directors in any matter pertaining to the plans.

**Built In 1910**

In the resolution passed Oct. 31 the Chamber pointed to the fact that the Marion postoffice was built in 1910 when the city had a population of 15,000. An addition built in 1937 was not large enough to provide adequate facilities for the city's present population of approximately 35,000, the resolution stated.

Among other inadequacies, the resolution pointed to insufficient lobby space to provide sufficient window service and the lack of enough lock boxes to care for the city's needs.

### Special Class Initiated at Meeting of P.H.C.

Marion Circle No. 184, Protected Home Circle, held a Cubbon class initiation Friday night. The class and meeting was in honor of W. R. Cubbon of Cleveland, supreme vice president of the Protected Home Circle.

The Ladies Degree team, in formal dress, conferred the initiatory ceremonies and were complimented by Mr. Cubbon on their work. The team was directed by the captain, Mrs. Laura Kraus.

Results of a local membership drive in honor of Mr. Cubbon were announced. The drive ended in a tie with the contest captains, Mrs. Mary Fout and Mrs. Ruth Arndt, each scoring 58 points. Each member who secured a new member was presented a PHC Cubbon campaign pin by Mr. Cubbon. Mrs. Fout was assisted by Mrs. Myrtle Buckingham. The captain and their assistants were presented handbags. Mrs. Minnie Van Asbeck, circle president, presented corsages to Mrs. Ruth Abell of Dayton and Mrs. Blanche Bush.

S. C. Abell, state deputy of Dayton and Mr. Cubbon spoke and Walter M. Swaney, deputy of the Lima circle, and supervisor M. J. Bush, also gave brief talks.

### Treated by New Modern Non-Surgical Methods

If you suffer from the agonizing pains of these diseases and have tried dozens of remedies and they have failed . . . then learn today about a new, triple scientific treatment method that has helped thousands to new health.

The first principle of this new treatment method is to go directly to the cause of your suffering and start the removal of the poisons from your system. Drugs and medicines that give temporary relief from your aches and pains will not do one bit of good toward relieving the cause of your trouble.

Pain and distress are nature's warnings that something is out of order with your system. Don't neglect it or go on drugging and medicining until some real serious condition develops that may result in permanent injury.

In response to thousands who have written to them about their famous methods of helping chronic sufferers to regain health, the Ball Clinic, Dept. , Excelsior Springs, Mo., has prepared an

# a good man to know

**Probably you know your nearby U. S. Royal Dealer.** He's a good friend and a good man to know . . . especially these days when we're all faced with the job of making our tires last until we can get new U. S. Royals.

He may operate a super-service station and employ dozens of helpers. He may own a small one- or two-man shop in a rural area. But regardless of size, his neighbors and customers look to him as the best tire man in town. That is why he was selected as a U. S. Royal Dealer.

### The best tire man in town!

He is a good man to know because he has made tires and tire care his life work.

When you go to him with a troublesome tire problem, he finds the answer with the skill of a highly trained tire service engineer. He knows the latest and best in repair and maintenance methods . . . He's not a Jack-of-all trades . . . but a master of one.

When it comes to having the right tools and the latest information on how to do the job right, he proves his right to the title . . . "The best tire man in town."

And to back him up with scientific and technical help, a corps of United States Rubber Company engineers brings him up-to-the-minute knowledge of factory service methods direct from the factory.

### A good man to do business with!

Like every good neighbor, your U. S. Royal Dealer has community pride and personal ambition. His success or failure as a local, independent merchant depends on how well he serves you.

He has a natural, logical pride in the tires he sells. You've probably heard him tell from his own experience the outstanding service that U. S. Royals have given in your community during the war.

When he tells you about the growing preference U. S. Royals have earned with service records often equalling and even exceeding the performance of prewar tires, you see the sparkle of personal satisfaction in his eye.

If you know your U. S. Royal Dealer, you'll agree he's a good man to know. If you don't know him, get acquainted soon. He is the most important man in United States Rubber Company's postwar plan to give you the finest tire service ever offered to American motorists.

### He has a good plan, too!

He recognizes his responsibility to help you keep your tires rolling until you can get new U. S. Royals. He offers you this specific plan to do that job:

1. He invites you to drive in today for a thorough inspection of your present tires. If you are in urgent need of new tires, he will show you how to get them at the earliest possible moment.

2. If your needs are not immediate, he will use his expert knowledge of tire care to help you keep your car on active duty until new U. S. Royals are available.

*HOLD OUT FOR*
**U. S. ROYALS**

Register your tire needs with your U. S. Tire Dealer now. He's a good man to know. He can help you better than any other man in town to *hold out for U. S. Royals.*

## Trio, Two Ousted By Navy in Vet's Death

By The Associated Press

CINCINNATI, Nov. 19—Three youths, two of them holders of dishonorable discharges from the Navy were charged with murder today in the one dollar robbery-slaying Saturday of Arthur Graebner, discharged 35-year-old veteran. The trio registered as Harold Logan Jr., 20, his brother, Ervin, 19, of Cincinnati and Theodore Weiler, 20, of Lincoln, Neb.

Detective Chief Clem Merz said a young woman had told police she did not "think it right for Weiler to be involved in such a thing and even wear Graebner's service button."

## Have You Had This Wrong Idea? . . . .

Seeing the finer equipment that Hughes Funeral Service provides, it is quite understandable that some people would think such a service must cost more.

It is true that we have always offered good motor equipment and have an air conditioned Funeral Home with the Everett organ. It also is true that these things cost money. But a competent audit also has shown that by careful and personal management, we have been able to keep our operating cost far below the average.

It all sums up to one fact. If you would prefer the advantages offered by better equipment and surroundings, you will find the cost no greater — possibly even lower — than you would pay elsewhere.

# COMING SOON: A SYNTHETIC TIRE THAT OUTWEARS PREWAR TIRES!

It isn't a guess. It's been proved! More than 2000 tests and nearly 100,000 miles of the toughest kind of actual road service show that this new B. F. Goodrich Silvertown will outwear prewar natural rubber tires.

**New, better rubber**

B. F. Goodrich has developed a rubber that is far better than ordinary synthetics . . . much better that for months it was a closely guarded military secret. The new tire is made with this rubber wears better and runs cooler. It has greater resistance to cracking—and actually stands bruising and damage from accidents better.

**Tire body 35% stronger**

An entirely new, stronger cord is used, and more of these cords are used in the top ply. An extra shock-absorbing breaker strip was included. The result: a body 35% stronger for additional resistance to bruises, extra blowout protection . . . another reason why new B. F. Goodrich Silvertowns outwear prewar tires.

**Flatter tread covers more ground**

The new Silvertown has a wider, flatter tread. We call it the "road level" tread. It puts more rubber on the road; permits all the tread to share the wear. Result: a further increase in mileage, less scuffing, better distribution of weight, better traction, more safety on the turns.

**3 years' RUBBER experiment**

18 months before Pearl Harbor, B. F. Goodrich offered nine commissions synthetic rubber to American manufacturers. That was 3 years ahead of any other tire manufacturer . . . 3 years in which B. F. Goodrich was piling up the extra know-how that is reflected in the coming B. F. Goodrich Silvertowns. Soon these new tires will begin to be produced in large volume. But shipments to our dealers, how quickly be limited for quite a while. [illegible] one of the first you [illegible] tomorrow if you have [illegible] problems, see your [illegible] dealer. The B. F. ## Deep Sea Fishing in Pearl Harbor

THERE is a public duty, or should be, as the Pearl Harbor deep sea fishing expedition gets under way in Washington to remember at all times the legitimate aim of the investigation.

It is to determine as closely as possible who was primarily responsible for a military disaster that crippled the United States seriously on Dec. 7, 1941.

It is to remove the implication of major guilt laid too freely and too hastily on the service commanders on the scene at the time—Admiral Kimmel and Gen. Short.

It is to fill in the diplomatic and strategic background of a historic event for the American public, which never has been given the complete story of what happened and which properly insists on its right to know.

The investigation inevitably is in the hands of politicians, some of whom have shown signs of greater devotion to political expediency than objective truth. The press and radio, of course, are responsible for keeping the spotlight turned on the behind-scenes moves by the political elements involved.

The investigation probably will be long. Certainly it will be exciting in some of its passages. But there should be no judgment until all the evidence has been heard. It is possible that some disturbing facts will be hauled out of the Pearl Harbor depths—but none more disturbing than the revelation four years ago that Japan could strike so telling a blow at American security without encountering anything more than nominal resistance.

## Gen. de Gaulle Too

IF Gen. De Gaulle must yield in France to the political power of its Communist minority, which has won enough seats in the Constituent Assembly to block any coalition not of its making, the leadership that shaped national policy in World War II will be all but liquidated.

Winston Churchill has been reduced to a party functionary in the house of commons. Franklin D. Roosevelt did not live to see the end of the war. Josef Stalin apparently has begun the long-awaited step of yielding to a successor without waiting for the exigency of his death to precipitate a scramble for power. The oddly assorted little men who bubbled into brief prominence as puppets of the third class powers while Germany held sway have drifted back into obscurity. Mussolini is dead. Hitler is unaccounted for and presumed dead. Hirohito and his regime are in prison or in leading strings: Chiang Kai-shek remains, but his post-war troubles are manifold. And in Spain there is still Franco.

It would be brash to say that the wartime leadership, having made history, is through. Strange things happen in politics. On the eve of World War II and during the war itself the names of leadership were sharply reminiscent of the names it used in World War I. The moving tide that sweeps away sweeps back—and on its crest one day soon many of the familiar names may return. But for the present, they are all but out of sight.

## Freedom's Co-sponsors

IT IS, of course, shocking after the close of a war against empire builders to be reminded that theirs was not an original sin. The struggle between Indonesians and the Anglo-Dutch combination resisting their drive for "independence" testifies that the war was fought to save empires as well as to prevent new ones.

Unfortunately, not all sponsors of freedom are above suspicion, as the British have special reason to know. Perhaps they should withdraw automatically in the face of every assertion of independence, but being wise in the devious techniques of trouble-making they are inclined to make mental reservations in all such matters. They did not knuckle down compliantly in World War I when Germany, their enemy, suddenly became interested in winning independence for Ireland. In World War II, they declined to absent themselves from Greece when a political minority drawing inspiration from Moscow claimed to be the only true guardians of Greek freedom. With World War II over and political rearrangements in order, the British suspect that what is called a bid for freedom in parts of the Malay archipelago may have as its co-sponsors agents of Japan planted for the specific purpose of embarrassing Britain and the Netherlands. The world is not, as Americans so eagerly assume, a sphere of loveliness in which only "perfidious Albion" deals in darkness. The British are capable of shocking decisions in shocking situations; it is characteristic of Americans that we prefer to overlook the provocation and pass judgment on the act it was intended to provoke.

# News Behind the News

By PAUL MALLON

### *Business Trend Still Contradicts Politicos.*

WASHINGTON, Nov. 19—The course of business continues to run counter to the positions taken by some of the nation's leading political factions.

Here you hear continuously expressed worries about deflation, lack of purchasing power among the people, widespread unemployment, impending depression and whatnot. This "worrying," of course, is built up to push the full employment bill for a permanent spending policy in a government which is already spending several times the amount Mr. Roosevelt spent in his utmost years.

But the purchasing power of the people, as anyone can see who goes into a store these days, is not only being maintained at a terrific pace but is growing stronger. You can confirm this rather clearly visible fact by statistics.

**Sales Increase**

In New York, department store sales for the week ending Nov. 11 were 20 per cent above last year; in Boston 10 per cent greater; Chicago up 7 per cent; Cleveland 10 per cent, Atlanta 15 per cent; Kansas City 15 per cent; Minneapolis 11 per cent, and in San Francisco "heavily increased," according to federal reserve board reports.

St. Louis was reported about the same and one or two cities suffered a decline as compared with a year ago, but all the others were not only ahead of last year but ahead of the week before. The increased purchasing power in other cities was obviously even greater because the national average was up 19 per cent.

If anyone wants to worry legitimately about purchasing power, it looks like he had better worry about it running too high into inflation, in view of the shortage of goods and the delay of the nation in reaching full production. The deflation argument has rather obviously been overstressed to the point where it has actually become a misguiding influence in the economic planning of the nation.

The high-powered propaganda organizations trump up these economic fictions at times for legislative or other purposes without thinking of the consequences of their deceptions on the public.

So also with the general business index. The graph line has been running up and down weekly in a rather dizzy manner such as you see presented in the comic supplements, but it has been working gradually lower.

Yet, with all the strikes, delays in reconversion and other setbacks, it is now roughly, months after the war, only 10 per cent off from the year's war peak. Certainly it furnishes no solid ground yet for worries about depression. Personally I was amazed to find it as high as it is.

**Future Not Certain**

Of course, no one can know about the future for certain, but certain economic elements are usable to give us a guide for sound expectations. The decline should gradually work lower for a few months until production gets to going. Certainly, with all this purchasing power in the hands of the people, it cannot decline beyond that point.

Here now we have great purchasing power discernible, we have a shortage of goods and we have vast potentialities of production. To me, these seem to make the ingredients for a stable economy at a very high level for many years to come. I say many years because these elements should all be present for that long a time at least. It is a well recognized fact that we cannot possibly produce everything everyone needs for a long time.

There are many counter-elements visible which could break up these expectations. One is inflation. You hear people say they are afraid of what it impends.

Actually we are in a condition of price inflation due to purchasing power which is really excessive when measured with the shortage of goods. It seems then that the soundest cause for genuine worry is that the great forces of propaganda will exert their influences to increase purchasing power still further and accentuate the existing inflation, instead of facing the facts and planning accordingly.

A well planned economy for the nation would promote purchasing power, boost wages and otherwise devote itself to increasing that influence upon the economy when needed, contraction of purchasing power, or at least stabilization of it, is called for when inflation threatens.

A well planned economy for the gram would not accept either alternative of inflation or deflation, but would hold tight rein to the visible economic factors and keep constantly adjusting their reins to meet them.

# Was Japan Liberated by U. S.?

### *Former Princeton Student Propounds a Theory.*

THOUSANDS of Americans have wondered since Japan's attack at Pearl Harbor four years ago what the Japanese who attended college in the United States were thinking about their government's policies and the outcome of the war it precipitated.

Some of these Americans have had a chance to look up their former Japanese school friends as members of the United States army of occupation. One of these, Lt. Comdr. Robert Pierce, USNR, has written for Princeton Alumni Weekly a report of his meeting with Chuji Kabayama, a former classmate at the university.

Chuji and his father, Count Kabayama, were members of the Japanese minority whose efforts to stop war with the United States are described in The Saturday Evening Post by Capt. Zacharias, whose broadcast to Japan calling for surrender was an outstanding event in the psychological warfare to destroy Japanese war party's power to continue the conflict.

He told Comdr. Pierce that Gen. MacArthur's policy for occupation of Japan is "wonderful" and said that if his American friends could understand Japanese he would overhear conversations among all classes of Japanese expressing the thought it was a good thing Japan was defeated.

He told Comdr. Pierce that the United States has liberated Japan from the despotism of its militarists. Chuji explained that his countrymen were astonished to find that American soldiers were so amiable because Japanese soldiers were despotic even among their own people.

Comdr. Pierce writes in conclusion:

"True, there is no outward sign of regret among the Japanese for the war, but everywhere there are sincere indications of welcome, helpfulness and cooperation—just as there were after the liberation of the Philippines."

# Use of Atomic Heat Forecast

### May Replace Coal at Power Plants, Says Dr. Compton.

By HOWARD W. BLAKESLEE
Associated Press Science Editor

PHILADELPHIA, Nov. 19 — Within 10 years power companies designing new plants for city service may be considering favorably the use of uranium's atomic heat instead of coal.

This prediction was made to the American Philosophical Society and the National Academy of Sciences here by Dr. Arthur H. Compton, Nobel prize scientist who headed the scientific work that produced the present atomic ovens to manufacture plutonium at Pasco, Washington. He is president of Washington university, St. Louis.

"This of course," Dr. Compton said, "does not mean atomic power will put coal out of business. Each will have its own field. For small heating units, such as kitchen stove, atomic power has no place."

Dr. Compton said uranium may reduce the cost of heat and power to cities. There will be the boon of no smoke.

He said a reasonably efficient atomic power plant could be put into operation within a year, making superheated steam to drive a turbine. But this plant would be only a demonstration, and not economic without a number of years of further development.

"Prominent advantages of atomic power," he said, "are the extraordinary low rate of fuel consumption and consequent low cost of fuel, wide flexibility and easy control, and complete absence at the power plant of smoke or noxious fumes."

This uranium power will be safe, Dr. Compton said atomic explosions, such as destroyed Hiroshima, cannot occur accidentally.

## Grants for Cities

By The United Press

CHICAGO—The American Municipal Assn. reports that the Illinois post-war planning commission is instructing county and city officials in how to get grants from a $4,850,000 state appropriation for local public works projects.

The instructions are included in a post-war public works handbook for local governmental agencies.

The handbook explains that each municipality is tentatively allocated $1,000 plus its proportionate share on a population basis. Money for which approvable applications have not been made by Jan. 30, 1946, is to be reallocated.

State payments are to be made only after the planning work has been completed and reviewed by the state agency, the handbook said.

## Clever Newsboys

By International News Service

CALCUTTA, India—Now that the war is ended, newsboys in Calcutta are using new means to sell their papers. They mill through a crowd of GIs shouting: "Read all about it in the Kansas City Star, New York Times, Brooklyn Eagles, Chicago Tribune." Although they have none of these publications, they hope that a homesick GI, hearing the name of his favorite hometown paper, will buy one before realizing that the paper he purchased is only a local Indian publication.

Mr. and Mrs. R. L. Montgomery and children Isabelle and Robert Jr., and Mr. and Mrs. Walter Newman of Chicago were visiting Mrs. Montgomery's parents, Mr. and Mrs. Sherman Stout of Pennsylvania avenue.

### TWENTY YEARS AGO

It was Thursday Nov. 19, 1925.

Red Cross workers directed by the annual campaign chairman, Guy H. Hulse, turned in nearly $8,000 in cash after their first day's solicitation. It was expected the total campaign quota of $10,000 would be raised by the following Sunday when 500 solicitors were to canvass all homes in the city.

An 86-year-old Marion woman broke into print as the result of going to a local barber shop to have her hair bobbed.

It became known that the bride of Jim Thorpe, famous athlete, whose marriage had taken place in New York City several weeks previous, was a resident of Marion county and not of West Virginia, as at first reported. She was the daughter of Mr. and Mrs. W. I. Kirkpatrick, Marion county farm residents, and had become acquainted with Thorpe when he came to Marion county to manage the Oorang Indian football team for the Oorang Kennels at LaRue.

The feature picture at the Marion theater was "The Man Who Found Himself," with Thomas Meighan in the leading role. Rin-Tin-Tin was starred at the Grand in "The Lighthouse by the Sea."

# Nazi Criminals' Wives Hopeful

### Think Husbands Will Be "Home for Christmas"

By PIERRE J. HUSS
International News Correspondent

BERCHTESGADEN, Nov. 19—Although a majority of Allied opinion is convinced that the leading Hitler desperadoes now behind prison bars awaiting trial in Nuernberg will "swing for it" before the end of 1945, the wives of several of these war criminals are equally sure their husbands will be home for Christmas.

Scarcely a day passes here that a determined and unreformed swastika female doesn't come barging into the offices of the local war crimes commission or invade the hotel Berchtesgadener Hof to buttonhole officers or your visiting correspondent for information on the Nuernberg situation. They will argue the entire case of their own "man" at the drop of a hat and blame the whole dirty work on "that awful Bormann" or "the dirty swines like Himmler and Ley."

The officers running the swank Berchtesgadener Hof as a rest hotel for the 44th ackack battalion and army nurses plus visiting firemen can spot these Nazi nuisance invaders at a glance. Lieut. Tom Butler of Miami, Fla., and Lieut. Earl Wilkerson of Knoxville, Tenn., take it as part of a day's work and hold the more persistent ones at bay in the lobby by cold-shouldering them out. They are not impressed by the former rank of their husbands.

**Officers Bear Brunt**

The brunt of it all falls on the shoulders of the officers of the local war crimes commission, headed by Capt. Harry A. Palmer of Newark, N. J., and his assistants, Lieut. Charles B. Delble of St. Louis, Mo. and Lieut. Charles S. Iversen of Washington, D. C. The Nazi women and many others of the same ilk have a fixed idea that these officers hold the keys to the jail, and could free anyone locked up during the recent "clean-up" raids in Berchtesgaden, which netted several hundred large and smaller Nazis.

The most persistent of the Nazi "button-holing squad," according to Captain Palmer, is Frau Alfred Jodl, who never takes "no" for an answer. It is her contention that her husband served Hitler in a strictly military capacity, and as such should not be confused with common Nazi rogues like Streicher and Ley. She is indignant at the locking up of Jodl in a Nuernberg prison cell.

Frau Jodl, who speakes English and as second wife of the Hitler general is twenty years his junior, says that her mother was the daughter of a British engineer named Gibbs. She has already made two trips to Nuernberg in attempts to argue her husband's case with the war crimes commission and to see him. A few days ago she came bursting in on Captain Palmer with letters to be forwarded to General Eisenhower, Field Marshal Montgomery, Justice Jackson and to Lord Jowett. In each of them she demanded the removal of her husband's name from the war criminal list.

**Was Soldier Only**

In the same category, and of strictly the same opinion and action here is Frau Keitel, who cannot understand why her husband should be regarded as part of the Hitler gang. The wife of the notorious Hitler "yes" man maintains that Keitel acted purely in the capacity of a soldier, subject to orders and never concerned with political or Nazi party matters.

Then there is petite and soft-spoken Frau Erich Kempka, wife of the chief Hitler chauffeur, who escaped from Berlin on May third after assisting in the burning of the bodies of Hitler and Eva Braun in the chancellory garden and in six weeks made his way afoot to his wife in the Berchtesgaden area. On a tip from cooperating Germans watching wives and relatives of such Nazi characters, Sgt. George Allen of the 101st Airborne Division security section and I hauled him out of bed late in June and locked him up. In the S. S. Kempka holds the rank of major.

When Kempka was first locked up, his wife came pleading daily for his release on the grounds that far worse Nazi offenders were footloose and living at home. She cried very nicely. Kempkt told interrogators that Martin Bormann, in discovering the marriage some six months peviously, had ordered him to divorce her because "she was not fit to be married to one of the Fuehrer's Elite SS officers." According to Kempka, the marriage was officially terminated on Bormann's action, but both he and his wife continued to live together and continued to regard themselves as validly married.

**Changes Her Tune**

During the first months of Kempka's detention in the Berchtesgaden jail, she rented a room directly opposite and hung around the entrance gate daily. It was her custom to spit disdainfully whenever she passed an American officer, which got her no place. In succeeding weeks, after Kempka was removed to higher level for possible interrogation as a witness at the Nuernberg trials, Frau Kempka became more reconciled to his imprisonment. She "buttonholes" officers almost daily and repeatedly calls on Captain Palmer for information about her husband. Lately she even professed to "feel ashamed of being a German" and claims her husband had nothing to do with Nazi acts and politics.

The wife of the notorious Nazi kreisleiter of Berchtesgaden, Frau Bernhardt Stredele, brings her three children along to gain sympathy and demand her house back. The fact that her husband was violently hated in this town doesn't faze her a bit. The latest wife of Julius Streicher is fond of using tears to plead the Jew-baiter's case. She says Julius was "misunderstood and is a wonderful man." Another one who cannot understand why her husband was taken away is Frau Martin Sommerfeldt, wife of the spokesman for the wehrmacht in Berlin.

### *Thoughts on Duck Hunting*

THIS is the duck hunting season. A duck is an amphibious pullet, a Philadelphia lawyer with webbed feet.

• • •

A duck hunter is a bad marksman who has his missing where it is least likely to be rectified. He is a sportsman who is only happy when cold, wet and frustrated.

• • •

A duck hunter thinks the height of adventure, pleasure, punishment is outwitting a duck with everything in the duck's favor, including the hunter.

• • •

He thinks nothing is good sport that has an element of comfort associated with it.

• • •

He believes the test of good clean fun is a pastime that combines the features of mud bathing, swamp research and gunnery in a gale.

• • •

A duck hunter hunts duck by choice, which is proof that he is a queer guy to begin with.

• • •

He could get a better meal hunting chickens, more exercise hunting squirrels and just as much adventure hunting peacocks. But not where near as much pneumonia.

• • •

A duck hunter spends the autumn clinging to breakwaters, hiding on jetties and slushing around meadows while trying to look like swamp flora and fauna would look if flora and fauna wore a hat and carried a bazooka.

• • •

He will spend an entire day shivering in a duckblind in a howling gale just to get something served in any restaurant with steam heat and applesauce.

• • •

A duckblind is a salt-water hideout which is highly amusing to a wise duck. It is so built that it fools the hunter completely.

• • •

When all set the hunter puts out carved and painted wooden things that look to him like ducks, but which look to ducks like deep-water buzzards. A duck hunter has a fine sense of fairness and will not take advantage of a duck by hunting without decoys.

• • •

One of the stirring sights of autumn is seeing live ducks head straight into a bevy of hunters and take a sharp detour the minute they see the decoys.

• • •

A duck hunter is trigger happy. He will fire away at anything on the wing and not wait enough to him for positive identification. He misses anyhow. So what can he lose?

• • •

After hitting a duck (generally by accident), it is up to the hunter to retrieve it by boat, raft, diving suit or the marine division of the FBI. When a dead duck is retrieved it is carted home, de-feathered, stuffed and baked until the buckshot can be removed without pliers. (The powder burns can be removed by strips of bacon.) This leaves nothing to remove but the duck, which should be removed in the first place.

# Consumers

By Truman Twill

All this sudden interest in consumers reminds us of the solicitude the boys used to feel for widows and orphans.

As one of the most consuming consumers around we want to tell the people who say they are worried about us that we will believe it when we see it. We consumers are getting to be embittered and cantankerous about what we believe. We've been jilted too often to be naive.

We aren't organized and it's a cinch we won't get represented, except occasionally by a stuffed shirt coached to give the right answers, but we have our little ways and means of getting even.

You should hear what we say when we get home and have time to think of what we should have said. If words would kill, they'd have us booked for himicide and we do mean just that—homicide. And the looks! We saw a consumer give a clerk such a dirty look that the clerk had to go wash his hands before he could wait on next please.

We consumers also do a good deal of sniffing. A consumer's sniff is something to hear. The funny thing is that no one notices it except during depressions. In depressions, the government organizes commissions to study consumer sniffing, though no one ever knows what the commissions find out, except that we consumers are out of money in depressions and haven't enough to make anybody sniff.

However, the consumers can sniff when they have money, too, but salesmen sniff right back that if we don't like the price or the quality there's nothing they can do about it because another consumer will be along in just a minute. The long and short of it is that no one really knows anything about us consumers, except ourselves.

We're the salt of the earth and kind to children. We are the backbone of the economy system and the solid fiber of the nation. It's a shame the way our money cannot be made to go further, but there are plenty of volunteers to help us stretch it.

We turn thumbs down and thumbs up. Fortunes are made and lost. No one ever dreamed of getting along without us, but we are flush no one tries to get along without us. We can take it or leave it, but when things get bad won't we please take it!

We are patient and long-suffering. We never complain, and when we do we are prone to make mountains out of mole hills. The first rule of the game and the fundamental program of production is that a consumer and his money must be parted, because that is the way to make more consumers to buy more production and so on until something snaps or the citizens to snap. Then it is time for the boys to start feeling sorry for us consumers again. It's quite a life, being a consumer.

# FOR THE LAST TIME, AMERICA - *BUY EXTRA BONDS!*

**Well, it's over . . .**

We came through the greatest danger in our history, to our greatest victory.

The price of that victory—in blood and in money—was high.

We can thank God that the price in blood is paid in full. There will be no more deaths in battle, no more new casualties.

But *the price in money is still not quite paid!*

**Your money is still needed** by the men who helped to pay in blood. Hospitalization for the wounded, the disabled. Artificial limbs for the men who have given their real ones. And help for the wives and orphans of the men who gave *everything*.

**Your money is still needed** for the education and training of our veterans—to help them find a real place in the America they saved for all of us.

Just as the money you lent (at interest) in the seven American War Loans helped pave the way for victory, the money you lend now in the Victory Loan will help secure the *fruits* of that victory.

Not only for our veterans and casualties—but for *you*. For these Bonds are still the world's safest investment. They are still the way to insure yourself the security and peace of mind that come from *safe, substantial savings!*

**This is the last time** you will be asked to buy *extra* bonds!* It's a great opportunity to help yourself while saying "Thanks!" in a very important way to the men who made our victory possible!

*Following the Victory Loan, the sale of E, F, and G U. S. Savings Bonds will continue through regular authorized agencies and through the Payroll Savings Plan.

# Christmas Seal Sale Opens

Opening of the Christmas Seal sale today commemorates the discovery of the X-ray 50 years ago this November by the German scientist Wilhelm Konrad Roentgen. "The X-ray is our most effective method of finding cases of tuberculosis and modern improvements in equipment have made possible its widespread use in finding the disease in its earliest stages," Joseph B. Stocklen, M. D., president of the Ohio Public Health association, said today in announcing the opening of the Christmas Seal sale campaign.

The Seal sale, sponsored by the 88 county tuberculosis and health associations in Ohio will continue until Christmas. The campaign in Ohio is part of the 39th annual national Christmas Seal sale.

Funds raised from the Seal sale are used for prevention and control of Tuberculosis. "Among the services performed for their local communities by county associations in Ohio is the inauguration of industrial X-ray surveys," Dr. Stocklen said. "One of the easiest ways of examining large groups of people is by X-raying workers who can go to school without much difficulty and without great loss of time. With modern X-ray equipment of each 100 to 200 chest X-rays can be made in an hour."

Dr. Stocklen said, "for the protection of the individual who may have tuberculosis and for the protection of those closely associated with him, it is vitally important that we find cases of tuberculosis before outward symptoms appear."

# DO WE GET TIRES OR NOT?

The public has become confused as to the tire picture. They read stories of great production, of an early end to rationing. They wonder why rationing boards are not more liberal in issuing new tire certificates—and then blame the dealer because he does not have tires. Naturally all of us would like to sell more tires—if we could get them. They are not being held back. There are many reasons why the demand exceeds the supply—and may continue to do so for the next two years. Don't be too hopeful, but be practical about your tires and you will have little to worry about as to continued safe motoring.

## This Is The Tire Picture

**Passenger tire quotas for November are 2,500,000. This is the same as it has been for the past several months. With a slight increase next month, it will mean that the entire yearly distribution will average one new tire per passenger car. Now—Let us see why YOU do not get tires. First, quotas are too small to meet the demand. Second, inventories in the hands of dealers are the smallest in history. The entire production of the rubber industry this month will do nothing more than fill backlog orders in the hands of manufacturers (more than 2 million) and the unfilled certificates in the hands of the public (more than 800,000). These have not been turned into tires because dealer stocks are virtually empty. Deliveries from manufacturers are two and three months behind. This is the complete story—verified by officials in the government agencies having to do with tire production and distribution.**

## HERE IS WHAT YOU CAN DO

By all means continue the measures of tire conservation that were urged by every government agency. They were — and still are — common sense principles. They include such fundamentals as careful driving—avoid sudden starts or stops. Have your tires inspected regularly. Keep tires properly inflated. If the wheels are out of alignment, have them adjusted. If there is a break, have it repaired at once. When the tread is worn smooth, have tires recapped immediately. Visit your tire serviceman who is interested in your continued driving and knows tire care. The dealers listed below have had years of experience and played a major part in maintaining transportation in this area. Their services are just as important today.

## HERE IS WHAT WE WILL DO

**We know every phase of tire construction, factors that lower tire mileage and how to guard against them. We know how to add new, safe miles to your tires. The quality of our repair and recapping work meets government regulations and the standards adopted by the National Bureau of Standards. It is our desire to assure you every possible mile of travel for your dollar — the best value possible. It is our opinion that there will not be sufficient tires to meet the demand for the next two years. Even if rationing should end, your needs will not be met. Tire repairs and recapping will continue to play a dominant part in transportation and we offer you the combined skill — the services and facilities of these tire merchants—your local business men.**

The Koreans regard the Japanese as cultural upstarts, for it was Korea that the land of the Morning Sun got most of its culture.

Korea had movable printing type 200 years before it was invented in Europe.

In 1592 under Adm Yu Sun-sin ... used ironclad warships ... a Japanese fleet, pre... the American Monitor and ... by almost 300 years ... guidebooks say Korea's younger generation enjoys all the privileges of modern education, ... only 18 per cent had access to schools compared with 99.5 per cent in Japan The true Japanese slogan, as expressed by one administrator, was Koreans should be taught to follow, not to know."

**Japs Hated Missionaries**

Foreign missionaries provided most of the real education and the Japanese hated them for it.

You may see many elderly men with long white whiskers. Pass by for fire protection, each smokes a pipe at least a yard long

In the old days the ordinary citizen had a 20-room house, while the bigshot had up to 90 rooms . . . He needed that many, because if he had any real dough he was obliged to support all his poor relatives and their families.

Korean houses are mostly one-story mud-walled affairs roofed with thatch or tile, with mats and oiled paper on the stone floors ingeniously heated by smoke-pipes that pass under them from the hearth.

**Plenty of Mountains**

Korea is so mountainous only about 20 per cent of the land is tillable Rice is the chief crop, of which the Japanese took more than one-third annually The worn-out soil is fertilized with human waste, so that to eat fresh vegetables is to risk dysentery or typhoid fever

Men are the ostensible bosses and women do all the housework, but once sonny boy brings home a wife, the bride gets the house-cleaning job and mamma becomes the elder statesman who takes over the reins for the whole family.

## POST-WAR BOOM IN FUTURES HITS SNAG

By The Associated Press

CHICAGO, Nov. 19—The long grain futures boom which has carried December rye up about 58 cents a bushel and December wheat 19 cents higher since the Japanese surrender about three months ago sloughed off last week.

Many market authorities have predicted a relapse for some time. Then last week the prospect for higher parity prices dimmed, at least temporarily. Thereafter the Board of Trade kicked the prop from the rye market by ordering increased margins and caused further nervousness by calling for a report on all rye holdings of 50,000 bushels or more

Proposed legislation to change the formula and boost parity prices substantially was shelved in the senate agricultural committee this week, at least until the first of the year Meanwhile opposition appeared to be mounting against similar legislation now before the house rules committee. Trade authorities also said farm organizations appeared cool toward the measures.

The Board of Trade upped margin requirements on rye from 20 to 35 cents a bushel in an apparent move to curb speculation and then called for a statement on all rye holdings of 50,000 bushels or more. After perusing these statements, the board ordered that no new commitments in December and May rye might exceed 250,000 bushels, and that operators whose holdings now exceed that figure could not buy more. The previous maximum was 700,000 bushels.

The board also increased the margin requirements on oats, other than spreading or hedging, from 6 cents a bushel to 10 cents
